Clarity Omnibus Survey

October 2026

clarity+campaign(labs)

Methodology

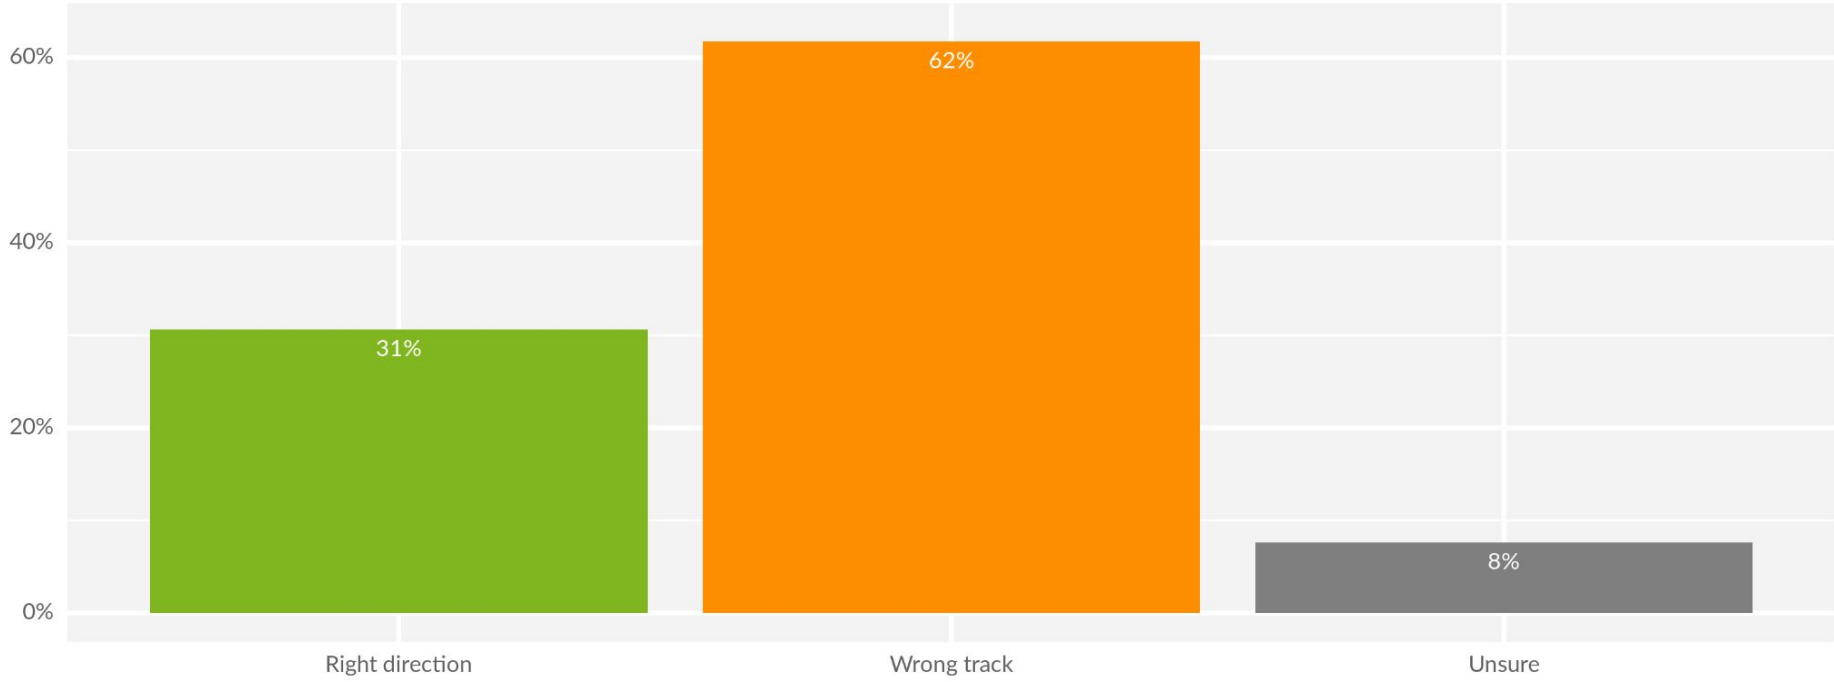

The October 2026 Clarity Omnibus survey was conducted from October 15-21st via national online public opinion panels. 1,016 respondents were matched to the voter file. The margin of error of this poll is +/-3.1% at a 95% confidence interval.

Attention checks were employed in the survey and respondents who failed attention check questions were removed from the sample.

Responses are **weighted to a national universe of likely 2026 General election voters** using factors including age, gender, race, education, geography, and our 2026g Turnout model.

Warm-up

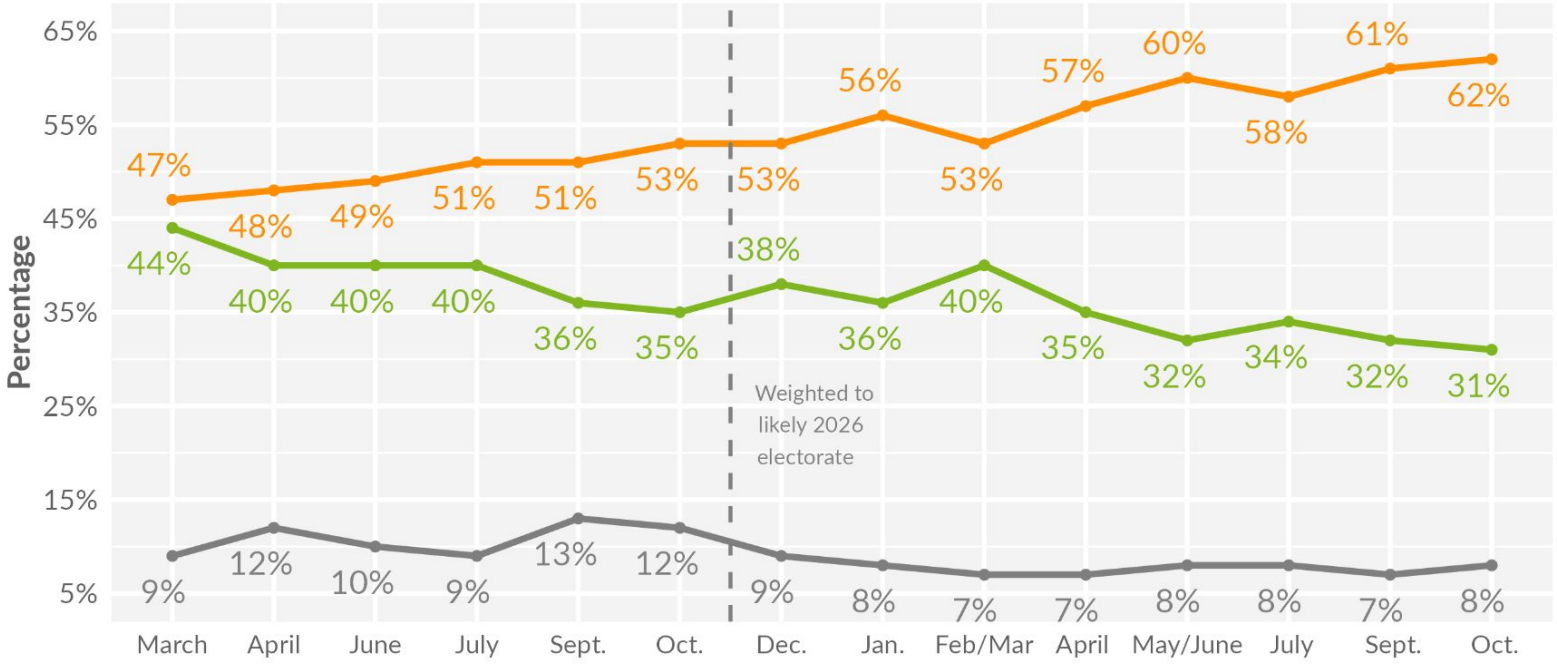

Do you think things in the United States are going in the right direction or do you think we're on the wrong track?
