QUANTUS INSIGHTS

STATEWIDE SURVEY OF ARIZONA LIKELY VOTERS

Arizona Governor 2026

Hobbs vs. Biggs with ballot, re-elect, favorability and the political environment, with demographic detail.

FIELDED	RESPONDENTS	POPULATION	MARGIN OF ERROR
August 14–17, 2026	780	Arizona likely voters	±4.1

EXECUTIVE BRIEF

Core findings

49.1 – 43.2

Hobbs–Biggs ballot

01 Hobbs leads, narrowly

49.1 to 43.2 on the ballot, 53.2 to 46.8 on the two-way. The lead is real but sits close to the survey's margin of error.

02 The electorate is already decided

Only 6.0 percent are undecided and 2.4 percent are unsure on re-election. Both candidates are net-defined, with Hobbs at +1.5 favorability and Biggs at -1.4.

03 Re-elect tracks the ballot

50.0 percent say Hobbs deserves re-election against 47.6 who say it is time for a new person, a net of +2.4.

04 Age is the sharpest divide

Hobbs takes 80.6 percent of the two-way among voters 18 to 29 and 44.2 among those 65 and over.

05 Geography sets the map

Urban voters back Hobbs 56.0 to 40.4; rural and town voters back Biggs 47.6 to 32.8.

06 The environment is a headwind

Presidential approval stands at 43.4 percent against 55.4 disapproving, a net of -12.0 and considered the backdrop for every reading in this survey.

METHODOLOGY

How this survey was conducted

POPULATION

Likely voters in the 2026 Arizona general election. Likely-voter status was set by the Quantus Insights turnout model, which estimates each voter's probability of participating from vote history, demographics, partisan-lean indicators and voter-file geography. Turnout scores define and weight the population. A screening question was administered for the online sample only.

UNIVERSE

Active registered voter-file records with two or more general elections voted.

FIELD PERIOD

August 14 to August 17, 2026.

MODE

Online panel and SMS-to-mobile cell interviews.

SAMPLING

Stratified random sampling from the eligible universe, matched to available contact records.

WEIGHTING

Iterative proportional fitting, or raking, to benchmarks for the Arizona likely general-election electorate on seven dimensions: sex, age, race, education, party, metro type and media market. Race comes from the voter-file field. Weights were trimmed to limit the influence of individual respondents and renormalised each iteration.

MARGIN OF ERROR

±4.1 percentage points at the 95 percent confidence level, design-adjusted, on the full sample of 780. Subgroup margins are larger.

REPORTING

Crosstab bases are weighted to the electorate profile.. Town is folded into rural and the balance of state into Tucson; Black, Asian and Other are reported as one group.

ROUNDING

Percentages may not total 100 due to rounding. Full precision is retained in the underlying results.

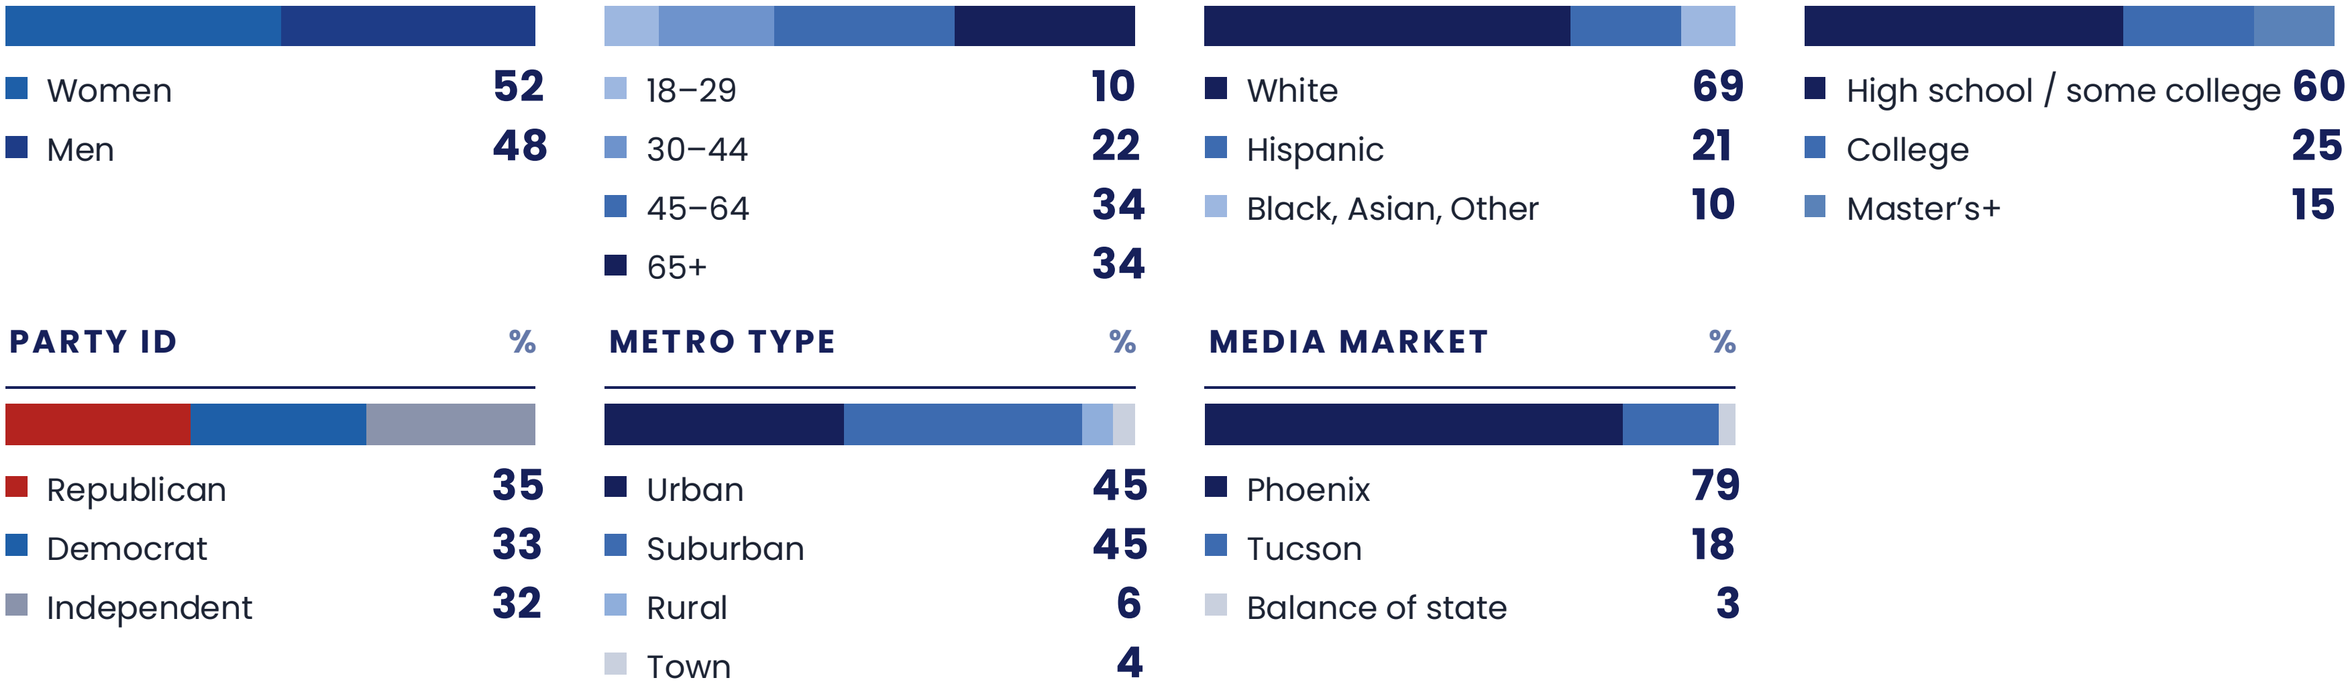

For questions or inquiries email contact@quantusinsights.org or visit quantusinsights.org.

QUANTUS INSIGHTS

SAMPLE COMPOSITION

Weighted to the Arizona likely-electorate profile

780
completed interviews

THE TARGETS

These are the quota and weighting targets for the Arizona likely electorate. Race, education and party ID are modeled from the voter file.

PHOENIX CARRIES THE STATE

79 percent of the electorate sits in the Phoenix market. The balance of state is too small to stand alone and is folded into Tucson in the crosstabs.

COMBINED GROUP

Black, Asian and Other voters are reported together throughout; each falls below the reporting threshold on its own.

FINDINGS

Arizona Governor 2026

Ballot, re-elect, favorability and the political environment.

QUESTIONS

Q1 through Q10

STRUCTURE

Headline result and demographic crosstab for every question

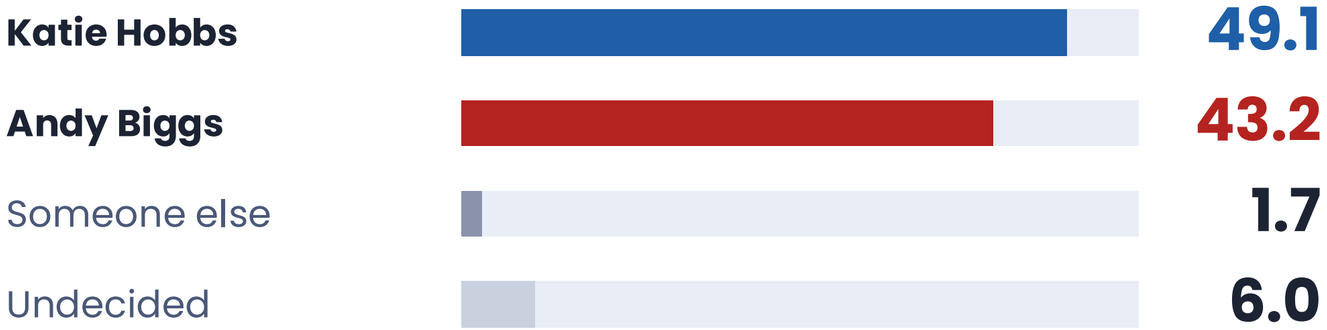

BASES

Weighted to the the likely electorate profile.

Q1 · BALLOT

If the election for Governor were held today, for whom would you vote?

6.0
undecided

TWO-WAY SHARE

Hobbs — Biggs

6.4 point margin, Hobbs

GENDER GAP

Women back Hobbs by 15.6 points; men back Biggs by 4.6.

WHERE IT IS DECIDED

Urban voters back Hobbs 56.0 to 40.4; rural and town voters back Biggs 47.6 to 32.8.

ROOM LEFT

6.0 percent are undecided overall, rising to 28.8 percent among independents.

Q1 · DEMOGRAPHIC DETAIL

If the election for Governor were held today, for whom would you vote?
