Topline results: every question at a glance

TOPLINE SUMMARY · 1 OF 1 · FINAL RESULTS

Selected results as a percentage of those answering each question. Response counts appear with each question. Detailed results follow.

Q1 · SENATE BALLOT · N=720

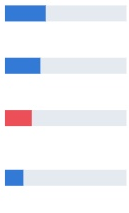

If the election for U.S. Senate were held today, for whom would you vote?

Peggy Flanagan, Democratic-Farmer-Labor	48.2%
Michele Tafoya, Republican	44.4%
Undecided	4.3%
Someone else	2.2%
Would not vote in this race	0.8%

Q2 · LEANER TEST · N=31

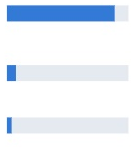

Even if you have not made up your mind, as of today do you lean more toward Michele Tafoya or Peggy Flanagan?

Do not lean toward either	33.6%
No lean recorded	29.2%
Lean toward Michele Tafoya	22.1%
Lean toward Peggy Flanagan	15.2%

Q3 · VOTE CERTAINTY · N=720

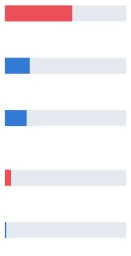

Have you definitely decided to support that candidate, or could you still change your mind?

Definitely decided	88.6%
Could change my mind	7.5%
Not sure	3.9%

Q4 · TRUMP JOB APPROVAL · N=720

Do you approve or disapprove of the job Donald Trump is doing as president?

Strongly disapprove	55.4%
Strongly approve	20.5%
Somewhat approve	17.9%
Somewhat disapprove	5.1%
Not sure	1.1%

Q5 · TAFOYA FAVORABILITY · N=720

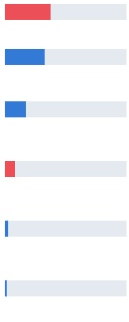

Do you have a favorable or unfavorable opinion of Michele Tafoya?

Very unfavorable	27.5%
Very favorable	27.1%
Somewhat unfavorable	14.5%
Somewhat favorable	15.3%
Have not heard of this person	8.3%
Heard of, but no opinion	7.3%

Q6 · FLANAGAN FAVORABILITY · N=720

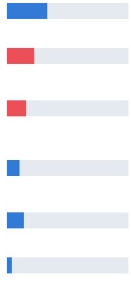

Do you have a favorable or unfavorable opinion of Peggy Flanagan?

Very unfavorable	37.6%
Very favorable	32.7%
Somewhat favorable	17.3%
Somewhat unfavorable	8.3%
Heard of, but no opinion	2.6%
Have not heard of this person	1.5%

Q7 · PARTY IDENTIFICATION · N=720

Generally speaking, do you consider yourself a Republican, a Democrat or DFLer, an independent, or something else?

Democrat (DFL)	33.2%
Republican	22.5%
Independent - Lean Republican	15.8%
Independent - Lean Democrat	10.4%
Independent	14.0%
Something else	4.1%

Q1. Senate Ballot

METHODOLOGY

How the survey was conducted

Likely voters in the study geography | Field dates: September 8-10, 2026

RESPONDENTS	EFFECTIVE N	DESIGN EFFECT	MARGIN OF ERROR
720	545	1.32	±4.2%

POPULATION AND WEIGHTING

Quantus Insights analyzed 720 completed interviews representing likely voters in the study geography. Respondents were contacted through SMS invitations sent to mobile phones. The voter file served as the sampling frame, and results were weighted using iterative proportional fitting (raking) to supported population benchmarks for Age range, Sex, Education (modeled), Metro type, Congressional district, Race / ethnicity (modeled), General vote frequency.

WEIGHTS AND UNCERTAINTY

Weights were trimmed to the approved 0.2× to 5.0× range and normalized before reporting. The reported design effect was 1.32, producing an effective sample size of 545 and an approximate 95% margin of error of ±4.2 percentage points for full-sample estimates near 50%.

REVIEW AND REPORTING

The analysis reviewed respondent integrity, item nonresponse, weighting fit, modeled-label reliability, turnout history, response bias, and estimate sensitivity. Uncertainty estimates used 400 reraked bootstrap replicates across 7 analytical scenarios. Each question uses its own available-response base. Blank or skipped answers are excluded from that question.

Percentages may not total 100% due to rounding. Bases below 30 are marked with an asterisk and are directional.
