QUANTUS INSIGHTS

STATEWIDE SURVEY OF LIKELY VOTERS · GENERAL ELECTION

Georgia Statewide Survey

The Ossoff–Collins U.S. Senate ballot, with the Governor and Lieutenant Governor races, two and a half weeks before Election Day.

FIELDED	RESPONDENTS	POPULATION	MARGIN OF ERROR
October 15–17, 2026	755	Likely voters	±3.8

EXECUTIVE BRIEF

Core findings

51.8 – 44.9

Ossoff – Collins, U.S. Senate ballot

01

Ossoff ahead by seven

Ossoff 51.8 percent to Collins 44.9, a 6.9-point lead. The margin of error on the gap between two candidates is about ±7.6, so the lead sits just inside it. 2.9 percent are undecided and 0.4 percent name another candidate.

02

The rest of the ticket tilts Republican

Jackson leads Bottoms for Governor 48.2 to 46.6, with 4.5 percent undecided; with leaners allocated it is 49.0 to 47.5. Dolezal leads McLaurin for Lieutenant Governor 47.3 to 46.6, 48.1 to 47.2 with leaners. Both are statistical ties.

03

A gender, age and metro divide

Women favor Ossoff 56 to 40; men favor Collins 51 to 47. Voters under 45 go Ossoff by 27 to 41 points; voters 65 and over go Collins 53 to 44. Urban voters go 72 Ossoff; rural voters go 65 Collins; the suburbs are 54 Ossoff to 41.

04

Ossoff runs ahead of his ticket

Independents back Ossoff 56 to 35 but split 46 Bottoms to 44 Jackson and 48 Dolezal to 43 McLaurin. Partisans hold: Democrats 96 Ossoff, Republicans 92 Collins. Black voters back Ossoff 89 to 7 and Bottoms 82 to 10.

05

The sample recalls a near-even 2024

Respondents recall a 47.2 to 46.9 Trump vote against a certified Trump +2.2, and a 42.7 to 41.6 Warnock vote in 2022 against a certified Warnock +0.9. The sample sits within two points of both benchmarks.

METHODOLOGY

How this survey was conducted

POPULATION

The survey represents likely voters in the 2026 Georgia general election. A likely-voter screen was used to define and weight the survey population, drawing on voting history, demographics, partisan-lean indicators and voter-file geography. Weighting benchmarks were constructed from the voter-file research universe so that every target reflects the actual composition of Georgia's likely electorate.

FIELD PERIOD

October 15 to 17, 2026.

SAMPLING

Stratified random sampling from the eligible universe, matched to available contact records.

MARGIN OF ERROR

±3.8 percentage points at the 95 percent confidence level, design-adjusted, for the full sample of 755. The design effect is 1.16, resulting in an effective sample size of approximately 652. Subgroup margins are larger. The margin on the difference between two candidates is roughly twice the single-share margin, about ±7.6. Uncertainty was additionally checked with 400 reraked bootstrap replicates.

ROUNDING

Percentages may not total 100 due to rounding. Full precision is retained in the underlying results.

UNIVERSE

Active registered Georgia voter-file records. Respondents were contacted through SMS invitations sent to mobile phones. Of 796 completed interviews, 41 (5.2 percent) were removed by likely-voter screening and quality review, leaving an analytical base of 755 likely voters. Every question in this report runs on that base; the three leaner follow-ups run on the undecided respondents routed to them.

MODE

SMS-to-mobile cell interviews.

WEIGHTING

Iterative proportional fitting, or raking, to benchmarks for the Georgia likely general-election electorate on six dimensions: sex, age range, race and ethnicity (reported), education (modeled), metro type and congressional district. Weights were trimmed to limit the influence of individual respondents and renormalized each iteration.

REPORTING

Topline results are shown to one decimal; crosstab cells are whole-number column percentages within each subgroup. Base n is shown on every table. Cells marked † rest on fewer than 80 respondents and are directional only. Race and ethnicity are shown both as reported on the voter file and as modeled; education is modeled; party is the mapped voter-file party field.

The survey intelligence pipeline that processes each study is described on the next page. For questions or inquiries email contact@quantusinsights.org or visit quantusinsights.org.

QUANTUS INSIGHTS

METHODOLOGY

Survey intelligence pipeline

Quantus Insights processes each study through a multi-stage survey intelligence pipeline that evaluates sample composition, coverage, geographic balance, and statistical stability.

01

BENCHMARKS AND WEIGHTS

The pipeline applies the study's likely-voter criteria and weighting benchmarks, monitors the distribution and influence of survey weights, and evaluates convergence with the intended electorate.

02

RESPONSE-BIAS AUDIT

Because respondents are drawn from the voter file, the pipeline also audits who within each demographic, partisan and geographic cell responded, comparing reported prior-cycle vote against certified results to detect response bias that demographic raking cannot.

03

CALIBRATION AND STABILITY

Where indicated, final weights are calibrated to official prior-cycle returns; calibration targets come from certified election results, never from the survey's own recall distribution. Effective sample size, subgroup stability, missing-data patterns and response-propensity checks against the universe are reviewed throughout.

04

EXPERT OVERSIGHT

Statistical automation is paired with expert methodological oversight to validate data quality, confirm the appropriate use of variables and benchmarks, and identify irregularities requiring further review. This combination provides a rigorous and consistent framework for producing estimates representative of the defined survey population.

How this study was processed: the pipeline's checks run on the full reporting base of 755 before any result in this report is produced. The reported design effect of 1.16 and effective sample size of 652 are outputs of that review.

Tallahassee–Thomasville	0.9	n=7
Dothan	0.1	n=1

Counts are the full reporting base of 755; every ballot and recall question uses this base. Weights are raked to the methodology benchmarks. Party is modeled from the voter file and runs 38 Republican, 37 Democrat, 24 independent. Race is as reported on the voter file; the modeled race field, also shown in the crosstabs, puts Black respondents at 33 percent and white respondents at 59.

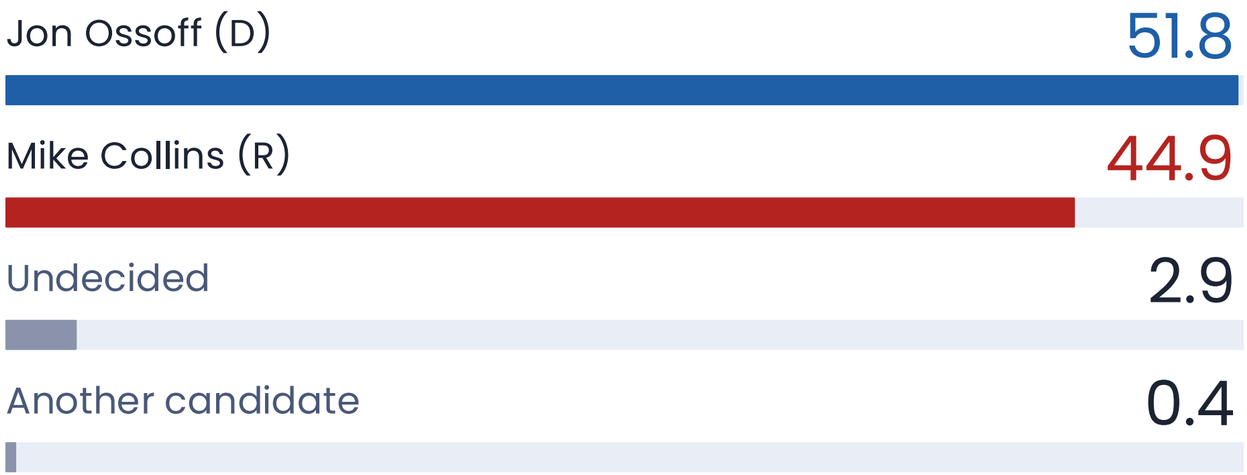

The Atlanta market carries 71 percent of the sample; Savannah 8 and Macon 7. Every market other than Atlanta, and Town (n=43), Hispanic (n=44), Asian (n=16), Other (n=18) and Graduate School (n=110) rest on bases that are directional in the crosstabs that follow and are marked †.

TOPLINE SUMMARY

The ballot at a glance

Responses to the U.S. Senate, Governor and Lieutenant Governor ballots, in percent of likely voters. Full results and demographic detail follow.

Q1 · U.S. SENATE BALLOT · N=755

Q1 · TWO-WAY, LEANERS AND MARGIN

As asked, all likely voters (Q1)	Ossoff +6.9
Two-way share, Ossoff	53.6
Two-way share, Collins	46.4
With leaners (Q2), Ossoff – Collins	52.7 – 45.4

Q3 · GOVERNOR AND Q5 · LT. GOVERNOR · N=755

Governor, Jackson (R) – Bottoms (D)	48.2 – 46.6
Governor with leaners (Q4)	49.0 – 47.5
Lt. Governor, Dolezal (R) – McLaurin (D)	47.3 – 46.6
Lt. Governor with leaners (Q6)	48.1 – 47.2

N = 755 likely voters on every ballot · October 15–17, 2026 · design-adjusted margin of error ±3.8. Percentages may not total 100 due to rounding. Two-way shares divide each nominee's vote by the two-candidate total. Leaners are allocated from the follow-up questions asked of undecided respondents.

SECTION ONE

The U.S. Senate ballot

The Ossoff–Collins ballot with demographic and media-market detail, and how undecided voters lean when pushed.

QUESTIONS

Q1, Q2

STRUCTURE

Topline result, ballot with leaners, demographic and media-market detail

BASES

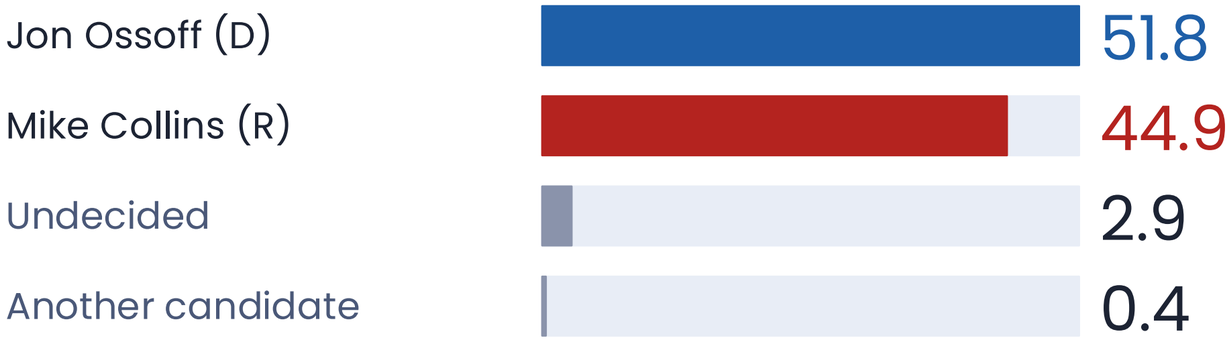

n = 755 full base; n = 22 follow-up

Q1 · U.S. SENATE BALLOT

If the election for U.S. Senate for Georgia were held today, for whom would you vote?

Ossoff +6.9

Ossoff margin, full sample

TWO-WAY SHARE

7.1 point margin, Ossoff, two-way

MARGIN BY GROUP

Women	Ossoff +16
Men	Collins +4
Independents	Ossoff +21
Suburban	Ossoff +13
Rural	Collins +32

THE MARGIN

Ossoff leads by 6.9 points. The margin on a difference between two candidates is about ±7.6, so the lead is at the edge of significance rather than decisive.

THE REST OF THE BALLOT

2.9 percent are undecided and 0.4 percent name another candidate. Undecided voters were asked a follow-up (Q2); with leaners allocated the ballot is Ossoff 52.7 to Collins 45.4.

REPORTING NOTE

Column percentages on the full base of 755. Group margins are differences in whole-number column percentages; two-way share divides each nominee by the two-candidate total.

Q1 + Q2 · U.S. SENATE BALLOT WITH LEANERS

The Senate ballot as asked, and with undecided voters pushed to lean

Ossoff +7.3

Ossoff margin with leaners allocated

Q1 · INITIAL BALLOT · N=755

Jon Ossoff (D)	51.8
Mike Collins (R)	44.9
Undecided	2.9
Another candidate	0.4

Q1 + Q2 · WITH LEANERS · N=755

Jon Ossoff (D)	52.7
Mike Collins (R)	45.4
Still undecided	2.0

Q2 · HOW THE UNDECIDED BROKE · N=22

If you had to choose, do you lean toward Jon Ossoff or Mike Collins?

Still undecided	59.7
Jon Ossoff, the Democrat	25.8
Mike Collins, the Republican	14.5

MARGIN, INITIAL AND WITH LEANERS

Initial ballot (Q1)	Ossoff +6.9
With leaners allocated	Ossoff +7.3

THE PUSH

Of the 3.3 percent who were undecided or named another candidate, 60 percent stay undecided when pushed, 26 percent lean Ossoff and 15 percent lean Collins. The follow-up was asked of 22 respondents and is directional.

WHAT IT DOES TO THE BALLOT

Allocating leaners adds 0.9 to Ossoff and 0.5 to Collins: 52.7 to 45.4 with 2.0 percent still undecided. The margin moves from 6.9 to 7.3, inside the rounding of the initial result.

REPORTING NOTE

Initial ballot on the full base of 755. Leaners are allocated to each nominee in proportion to the Q2 shares and added to the initial ballot; the still-undecided share is the Q2 still-undecided share applied to the same pool.

Q1 · DEMOGRAPHIC DETAIL

ATLANTA

The Atlanta market, 71 percent of the sample, goes Ossoff 56 to 40, eleven points left of Harris +5.2 there in 2024. Savannah goes Collins 56 to 40 and Macon is even at 49 to 48, both on bases under 80.

THE SMALLER MARKETS

Augusta goes Collins 62 to 34, Albany 70 to 30 and Chattanooga 82 to 18. Columbus, Greenville, Tallahassee and Jacksonville rest on 16 or fewer respondents each and are shown for transparency only.

REPORTING NOTE

Whole-number column percentages within each market. Other = undecided and another candidate. † = base under 80, directional. Presidential margins are certified county returns aggregated to Nielsen media markets.

SECTION TWO

Governor and Lieutenant Governor

The Jackson–Bottoms and Dolezal–McLaurin ballots with demographic and media-market detail, and how undecided voters lean when pushed.

QUESTIONS

Q3, Q4, Q5, Q6

STRUCTURE

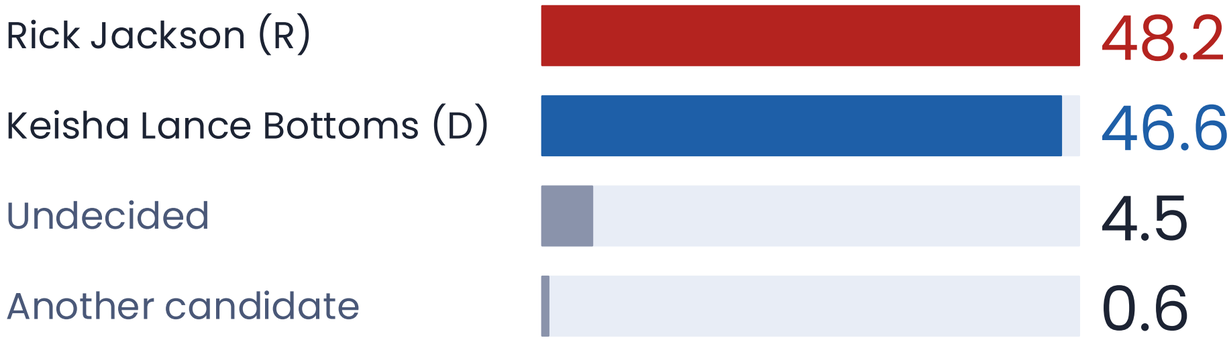

Topline result, ballot with leaners, demographic and media-market detail

BASES

n = 755 full base; n = 34 and 46 follow-ups

Q3 · GOVERNOR BALLOT

If the election for Governor were held today, for whom would you vote?

Jackson +1.6

Jackson margin, full sample

TWO-WAY SHARE

1.7 point margin, Jackson, two-way

MARGIN BY GROUP

Women	Bottoms +6
Men	Jackson +11
Independents	Bottoms +2
Suburban	Jackson +3
Rural	Jackson +31

THE MARGIN

Jackson leads by 1.6 points, well inside the roughly ±7.6 margin on a difference. The race is a statistical tie.

THE UNDECIDED

4.5 percent are undecided and 0.6 percent name another candidate. Pushed to lean (Q4), the undecided split 19 Bottoms to 18 Jackson, 63 still undecided; with leaners allocated it is Jackson 49.0 to 47.5.

REPORTING NOTE

Column percentages on the full base of 755. Group margins are differences in whole-number column percentages; two-way share divides each nominee by the two-candidate total.

Q3 + Q4 · GOVERNOR BALLOT WITH LEANERS

The Governor ballot as asked, and with undecided voters pushed to lean

Jackson +1.5

Jackson margin with leaners allocated

Q3 · INITIAL BALLOT · N=755

Rick Jackson (R)	48.2
Keisha Lance Bottoms (D)	46.6
Undecided	4.5
Another candidate	0.6

Q3 + Q4 · WITH LEANERS · N=755

Rick Jackson (R)	49.0
Keisha Lance Bottoms (D)	47.5
Still undecided	2.8
Another candidate	0.7

Q4 · HOW THE UNDECIDED BROKE · N=34

If the race came down to Keisha Lance Bottoms and Rick Jackson, which way would you lean?

Still undecided	62.8
Rick Jackson, the Republican	17.8
Keisha Lance Bottoms, the Democrat	19.4

MARGIN, INITIAL AND WITH LEANERS

Initial ballot (Q3)	Jackson +1.6
With leaners allocated	Jackson +1.5

THE PUSH

Of the 4.5 percent undecided, 63 percent stay undecided when pushed, 19 percent lean Bottoms and 18 percent lean Jackson. The follow-up was asked of 34 respondents and is directional.

WHAT IT DOES TO THE BALLOT

Allocating leaners adds 0.8 to Jackson and 0.9 to Bottoms: 49.0 to 47.5 with 2.8 percent still undecided. The margin moves from 1.6 to 1.5; the race is a tie either way.

REPORTING NOTE

Initial ballot on the full base of 755. Leaners are allocated to each nominee in proportion to the Q4 shares and added to the initial ballot, as reported in the survey's derived analysis.

Q3 · DEMOGRAPHIC DETAIL

ATLANTA

The Atlanta market, 71 percent of the sample, goes Bottoms 50 to 46 against Harris +9 in 2024. Savannah goes Jackson 56 to 38 and Macon 62 to 31, both on bases under 80.

THE SMALLER MARKETS

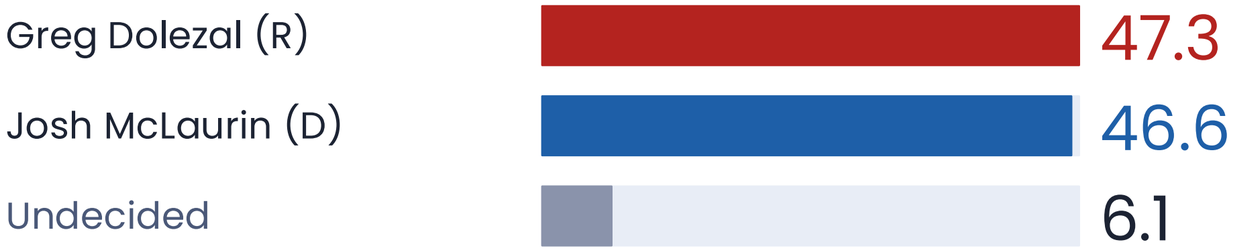

Augusta goes Jackson 59 to 41, Chattanooga 74 to 26 and Columbus 58 to 42. Albany, Greenville, Tallahassee and Jacksonville rest on fewer than 20 respondents each and are shown for transparency only.

REPORTING NOTE

Whole-number column percentages within each market. Other = undecided and another candidate. † = base under 80, directional. Presidential margins are certified county returns aggregated to Nielsen media markets.

Q5 · LIEUTENANT GOVERNOR BALLOT

If the election for Lieutenant Governor were held today, for whom would you vote?

Dolezal +0.7

Dolezal margin, full sample

TWO-WAY SHARE

0.7 point margin, Dolezal, two-way

MARGIN BY GROUP

Women	McLaurin +5
Men	Dolezal +7
Independents	Dolezal +5
Suburban	Dolezal +6
Rural	Dolezal +29

THE MARGIN

Dolezal leads by 0.7 points, a statistical tie against the roughly ±7.6 margin on a difference. This is the closest of the three statewide ballots.

THE UNDECIDED

6.1 percent are undecided, the largest pool on the ballot. Pushed to lean (Q6), they split 14 Dolezal to 8 McLaurin, 78 still undecided; with leaners allocated it is Dolezal 48.1 to 47.2.

REPORTING NOTE

Column percentages on the full base of 755. Group margins are differences in whole-number column percentages; two-way share divides each nominee by the two-candidate total.

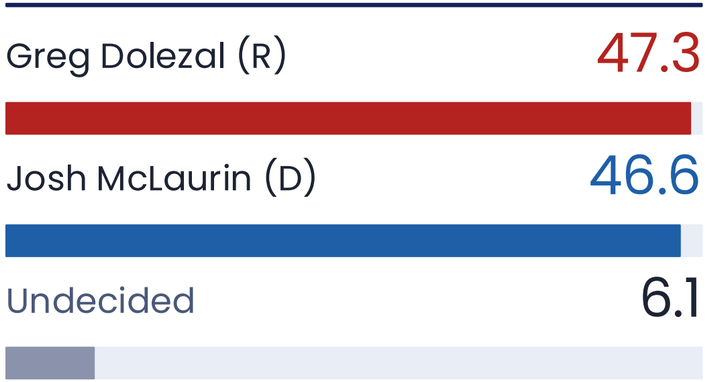

Q5 + Q6 · LIEUTENANT GOVERNOR BALLOT WITH LEANERS

The Lieutenant Governor ballot as asked, and with undecided voters pushed to lean

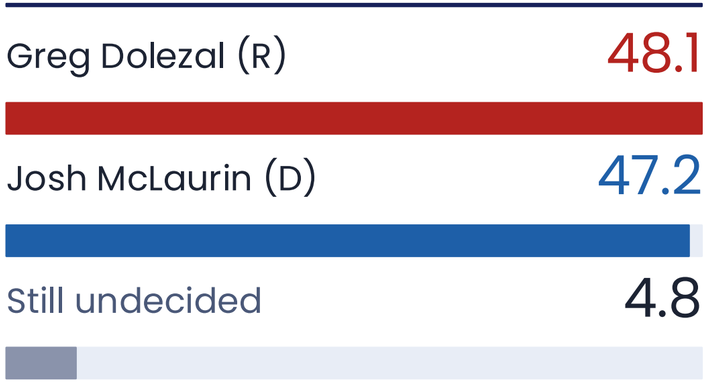

Dolezal +0.9

Dolezal margin with leaners allocated

Q5 · INITIAL BALLOT · N=755

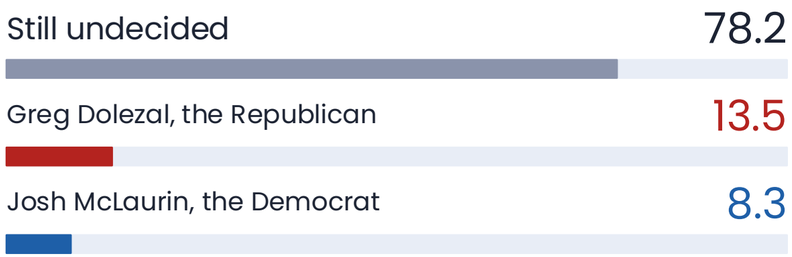

Q5 + Q6 · WITH LEANERS · N=755

Q6 · HOW THE UNDECIDED BROKE · N=46

If you had to choose, do you lean toward Josh McLaurin or Greg Dolezal?

MARGIN, INITIAL AND WITH LEANERS

Initial ballot (Q5)	Dolezal +0.7
With leaners allocated	Dolezal +0.9

THE PUSH

Of the 6.1 percent undecided, 78 percent stay undecided when pushed, 14 percent lean Dolezal and 8 percent lean McLaurin. The follow-up was asked of 46 respondents and is directional.

WHAT IT DOES TO THE BALLOT

Allocating leaners adds 0.8 to Dolezal and 0.6 to McLaurin: 48.1 to 47.2 with 4.8 percent still undecided. The margin moves from 0.7 to 0.9; the race is a tie either way.

REPORTING NOTE

Initial ballot on the full base of 755. Leaners are allocated to each nominee in proportion to the Q6 shares and added to the initial ballot, as reported in the survey's derived analysis.

Q5 · DEMOGRAPHIC DETAIL

GENDER AND AGE

Women back McLaurin 49 to 44; men back Dolezal 51 to 44. Voters under 45 go McLaurin by 13 to 25; voters 45 and over go Dolezal by 9 to 10.

PARTY AND PLACE

Republicans hold at 90 percent and Democrats at 93; independents go 48 Dolezal to 43 McLaurin. Urban voters go McLaurin by 51, rural voters Dolezal by 29; the suburbs are Dolezal +6 with 10 percent undecided. Atlanta is even at 47 to 46.

REPORTING NOTE

Whole-number column percentages. Other = undecided. † = base under 80, directional. Race is shown as reported on the voter file and as modeled; education and party are modeled.

Q5 · MEDIA MARKET DETAIL

The Lt. Governor ballot by media market, against the certified presidential margins.

Q5 · LIEUTENANT GOVERNOR BALLOT

MEDIA MARKET	N	DOLEZAL	McLAURIN	OTHER	MARGIN	2020 PRES.	2024 PRES.
Atlanta	n=538	46	47	7	McLaurin +1	D +7.3	D +5.2

Tallahassee–Thomasville†	n=7	83†	17†	0†	Dolezal +66†	R +18.8	R +24.5

ATLANTA

The Atlanta market is even, 47 McLaurin to 46 Dolezal, with 7 percent undecided. Savannah goes Dolezal 51 to 43 and Macon is even at 48, both on bases under 80.

THE SMALLER MARKETS

Augusta goes Dolezal 55 to 40, Chattanooga 74 to 19 and Columbus 62 to 38. Albany, Greenville, Tallahassee and Jacksonville rest on fewer than 20 respondents each and are shown for transparency only.

REPORTING NOTE

Whole-number column percentages within each market. Other = undecided. † = base under 80, directional. Presidential margins are certified county returns aggregated to Nielsen media markets.

SECTION THREE

Georgia in context

The three ballots against the state’s regional map, its statewide benchmarks since 2008 and the published polling averages.

QUESTIONS

Q1, Q3, Q5 in context

STRUCTURE

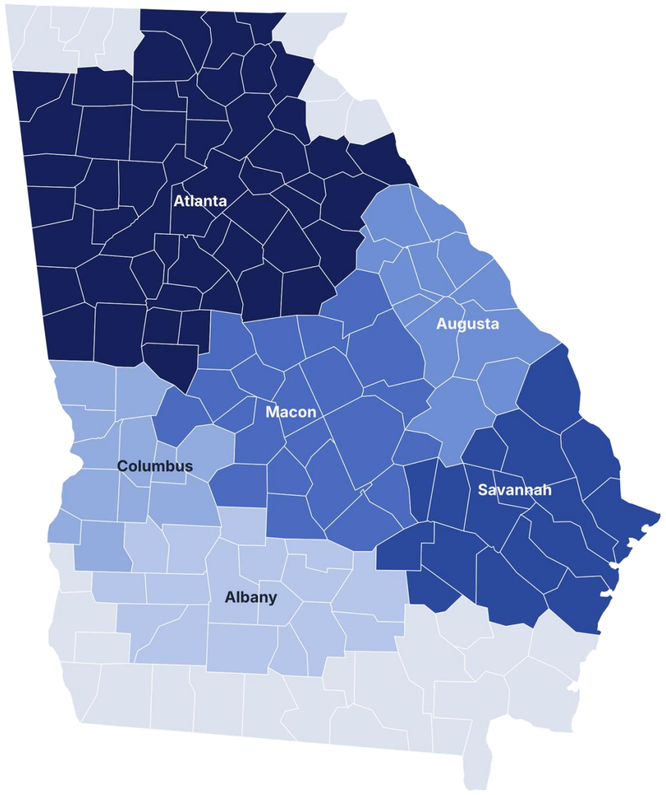

Regional map and statewide benchmarks

BASES

Certified returns, 2008–2024; published polling averages

REGIONAL CONTEXT

Where Georgia's vote comes from

Regions are the Nielsen media markets used in this survey, built from certified county returns for all 159 counties. Tints mark the six largest markets; the five remaining markets are shown in grey.

MARGIN BY REGION AND IN THIS SURVEY

REGION	SHARE 2024 VOTE	2020 PRESIDENT	2024 PRESIDENT	SHIFT 2020–24	SENATE THIS SURVEY
Statewide	100%	**D +0.2**	**R +2.2**	-2.4	**Ossoff +7**
Atlanta	70%	D +7.3	**D +5.2**	-2.1	**Ossoff +16**
Savannah	7%	R +11.8	**R +14.5**	-2.7	**Collins +16†**
Macon	6%	R +9.6	**R +12.3**	-2.7	**Ossoff +1†**
Augusta–Aiken	4%	D +1.0	**R +2.2**	-3.2	**Collins +28†**
Columbus	3%	D +7.9	**D +5.2**	-2.7	**Collins +36†**

Greenville	1%	R +58.4	**R +61.7**	-3.3	**Ossoff +74†**
WITHIN THE ATLANTA MARKET					
Fulton County	10%	D +46.4	**D +44.9**	-1.5	
DeKalb County	7%	D +67.4	**D +64.8**	-2.6	
Gwinnett County	8%	D +18.3	**D +16.5**	-1.8	
Cobb County	8%	D +14.3	**D +14.9**	+0.6	
Outer Atlanta	37%	R +21.1	**R +21.6**	-0.5	

Biden–Trump 2020 and Harris–Trump 2024, Democratic minus Republican share of all votes, certified county returns aggregated to Nielsen markets. Shift: 2024 less 2020; negative means toward the Republicans. Share is the region's portion of the 2024 vote. Senate: this survey's Ossoff–Collins margin; † = base under 80. Dothan (0.3 percent, one respondent) omitted.

ATLANTA

Atlanta casts 70 percent of the vote and went Harris +5.2 in 2024. Fulton is D +45, DeKalb D +65, Gwinnett D +16, Cobb D +15; the outer Atlanta counties, 37 percent of the state, run R +22.

THE REST OF THE STATE

Every other market voted Trump in 2024 except Columbus (D +5.2). Savannah is R +14.5, Macon R +12.3, Augusta R +2.2 after Biden +1.0 in 2020. The state moved 2.4 points right from 2020 to 2024.

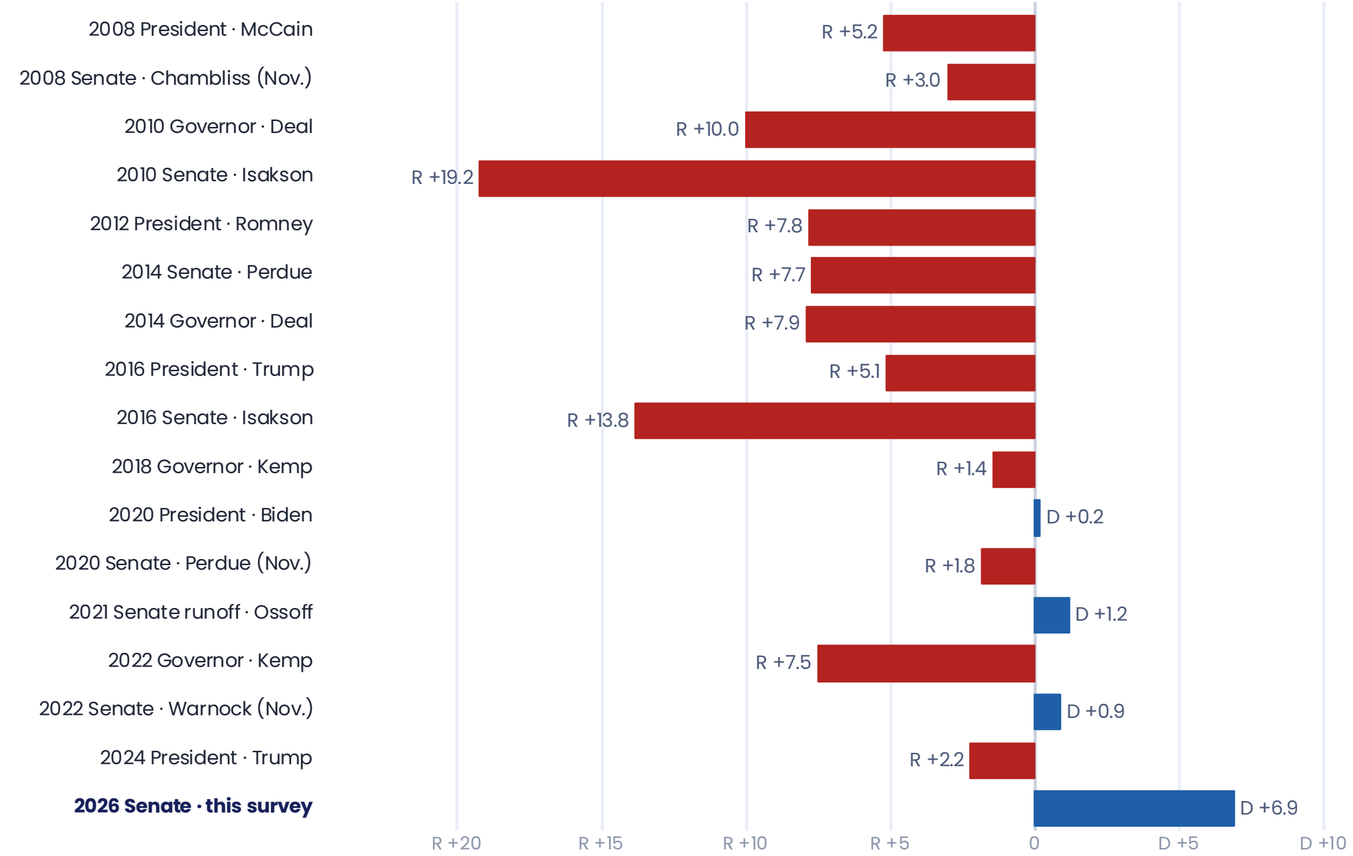

IN THIS SURVEY

Atlanta goes Ossoff 56 to 40, eleven points left of Harris's 2024 margin there. Savannah is Collins +16 and Macon even on bases under 80; the smaller markets track their presidential lean.

HISTORICAL BENCHMARKS

A state that flipped and stayed close; a race the polls call Ossoff +9

STATEWIDE MARGIN, WINNING PARTY, POINTS

PUBLISHED POLLING AVERAGES · U.S. SENATE

Pollsmax As of Oct 9	51.6	42.5	Ossoff +9.1
Average of averages Five aggregators	**51.9**	**43.1**	**Ossoff +8.8**

Aggregator averages as updated October 4 to October 17, 2026. Shares in percent. Cook Political Report rates the race Likely Democrat. Quantus's September 14 to 16 survey (Ossoff 49, Collins 45) is one of the polls in the public averages.

THE BENCHMARK

Republican in every statewide race from 2008 through 2018, by as little as Kemp's 1.4. Biden +0.2 in 2020, Warnock +0.9 and +2.8 in 2022, Trump +2.2 in 2024.

THE CANDIDATE RECORD

Ossoff won the January 2021 runoff over Perdue 50.6 to 49.4 after trailing in November. Collins, the 10th District congressman, won the June 16 runoff over Dooley 55 to 45.

AGAINST THE AVERAGES

Ossoff's 51.8 sits at the low end of the aggregators' 51.0 to 52.5; Collins's 44.9 is above their 42.5 to 43.4. Ossoff +6.9 against +8.8 is a 1.9-point gap, inside the ±7.6 margin.

SECTION FOUR

The 2024 and 2022 baselines

How the sample recalls its 2024 presidential vote and its November 2022 U.S. Senate vote, each against the certified result and with demographic detail.

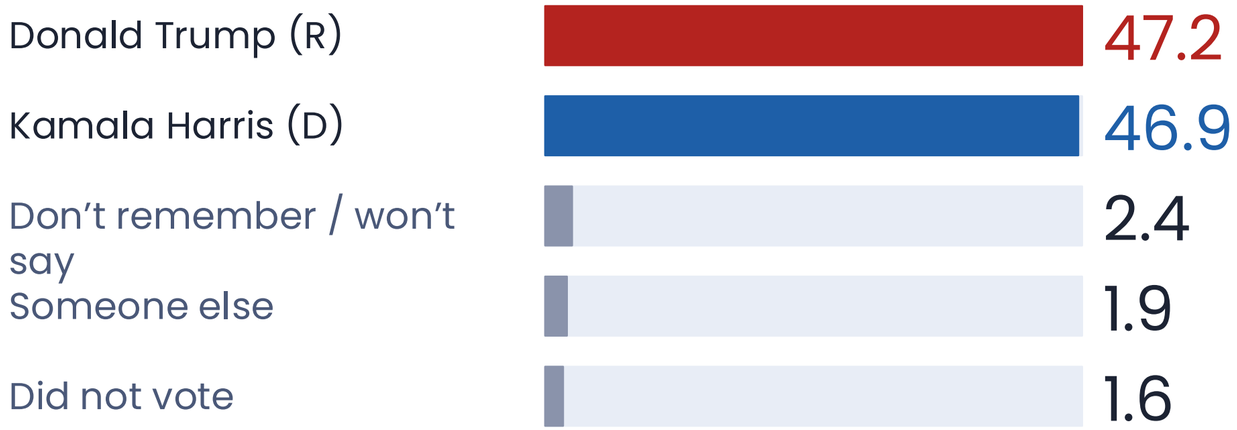

QUESTIONS
Q7, Q8

STRUCTURE
Topline result and demographic detail

BASES
n = 755 full base

Q7 · 2024 PRESIDENTIAL VOTE RECALL

In the 2024 presidential election, for whom did you vote?

Trump +0.3

Trump margin, recalled 2024 vote

TWO-WAY SHARE, RECALLED

2.2 point margin, Trump, certified 2024 result

RECALLED MARGIN BY GROUP

Women	Harris +9
Men	Trump +11
Independents	Harris +1
Suburban	Trump +2
Rural	Trump +26

THE BASELINE

Respondents recall a 47.2 to 46.9 Trump vote, a 0.3-point margin. Georgia’s certified 2024 result was Trump 50.7 to Harris 48.5, a 2.2-point margin.

WHAT IT MEANS

The sample recalls a margin 1.9 points narrower than the certified result, within the usual understatement of a winner’s margin. The Ossoff +6.9 ballot is a seven-point swing from the recalled vote; the Governor and Lieutenant Governor ballots sit within two points of it.

REPORTING NOTE

Column percentages on the full base of 755. Certified result from the Georgia Secretary of State; recall typically understates the winner’s margin.

Q7 · DEMOGRAPHIC DETAIL

In the 2024 presidential election, for whom did you vote?

Greenville–Spartanburg†	37†	30†	33†	14
Jacksonville†	81†	19†	0†	8
Tallahassee–Thomasville†	65†	0†	35†	7

GENDER GAP

Men recall Trump by 11 points and now back Collins by 4; women recall Harris by 9 and back Ossoff by 16. Voters under 45 recall Harris; voters 45 and over recall Trump by 9 to 13.

PARTY AND PLACE

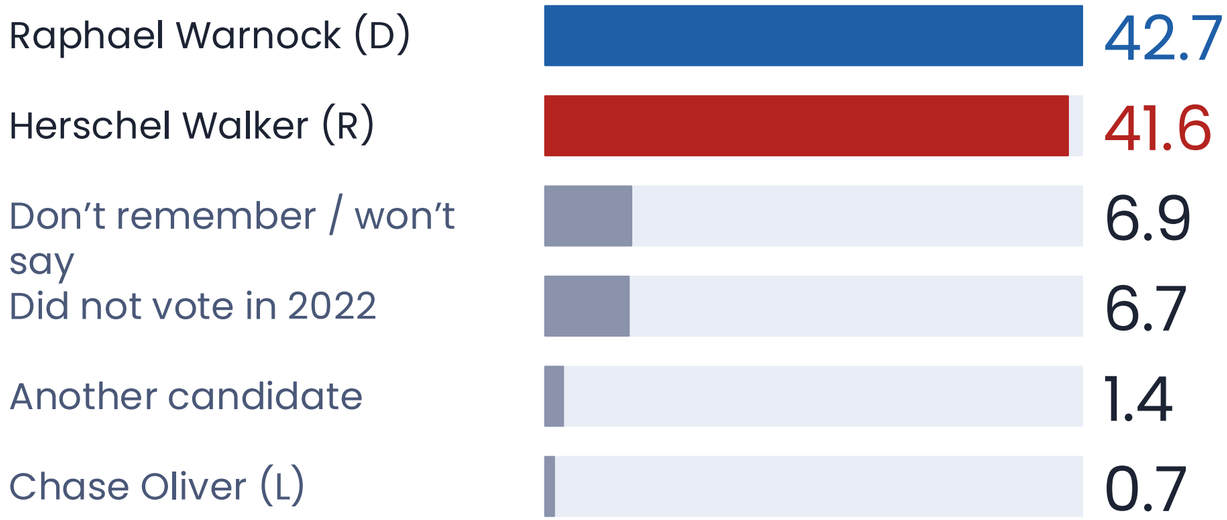

Republicans recall Trump 89 to 4; Democrats recall Harris 90 to 3. Independents recall Harris 49 to 48 and now back Ossoff 56 to 35. White voters recall Trump 67 to 29 by reported race and back Collins 64 to 33.

REPORTING NOTE

Whole-number column percentages. Neither combines someone else, did not vote and don't remember. † = base under 80. Race is shown as reported on the voter file and as modeled; education and party are modeled.

Q8 · 2022 U.S. SENATE VOTE RECALL

In the November 2022 election for U.S. Senate, for whom did you vote?

Warnock +1.1

Warnock margin, recalled 2022 vote

TWO-WAY SHARE, RECALLED

0.9 point margin, Warnock, certified November 2022

RECALLED MARGIN BY GROUP

Women	Warnock +11
Men	Walker +11
Independents	Walker +36
Suburban	Warnock +2
Rural	Walker +30

THE BASELINE

Respondents recall a 42.7 to 41.6 Warnock vote, a 1.1-point margin. The certified November 2022 general was Warnock 49.4 to Walker 48.5, a 0.9-point margin, before the December runoff Warnock won by 2.8.

WHAT IT MEANS

Fourteen percent do not remember or did not vote in 2022, so the recalled shares run lower than the certified ones; the margin matches within a quarter point. The 2022 recall and the 2024 recall together place the sample on a near-even electorate.

REPORTING NOTE

Column percentages on the full base of 755. Certified result from the Georgia Secretary of State. Chase Oliver, the Libertarian, drew 2.1 percent in November 2022.

Q8 · DEMOGRAPHIC DETAIL

In the November 2022 election for U.S. Senate, for whom did you vote?

GROUP	WALKER	WARNOCK	NEITHER	N

Jacksonville†	84†	16†	0†	8
Tallahassee–Thomasville†	69†	15†	16†	7

GENDER AND AGE

Women recall Warnock 49 to 38; men recall Walker 46 to 35. Voters 30 to 44 recall Warnock 62 to 22; voters 65 and over recall Walker 50 to 35. The 18 to 29 cell includes many who were too young or did not vote in 2022.

PARTY AND PLACE

Republicans recall Walker 69 to 11 with 16 percent not remembering; Democrats recall Warnock 87 to 1. Independents recall Walker 60 to 24. Urban voters recall Warnock by 49, rural voters Walker by 30.

REPORTING NOTE

Whole-number column percentages. Neither combines don’t remember, did not vote, another candidate and Chase Oliver. † = base under 80. Race is shown as reported on the voter file and as modeled; education and party are modeled.

BASES AND MARGIN OF ERROR

What each number can carry.

ANALYSIS BASE	95% MARGIN OF ERROR	REPORTABLE
755 full study	±3.8 pts	Yes
300 to 400	±5.3 to ±6.1 pts	Yes
150 to 250	±6.7 to ±8.6 pts	Yes, with base
80 to 149	±8.6 to ±11.8 pts	Directional
Under 80	wider than ±11.9 pts	Transparency only

Margins are calculated at the 95 percent confidence level for an estimate near 50 percent and include the survey design effect of 1.16. Subgroups marked † should be interpreted as directional. The margin on a difference between two candidates is roughly twice the single-share margin, about ±7.6. Follow-up questions (Q2, Q4, Q6) do not use the full-sample margin of error.

QUESTION BASES

Q1 · U.S. Senate ballot	**n=755**
Q2 · Senate follow-up, undecided pushed to lean	**n=22**
Q3 · Governor ballot	**n=755**
Q4 · Governor follow-up, undecided pushed to lean	**n=34**
Q5 · Lieutenant Governor ballot	**n=755**
Q6 · Lt. Governor follow-up, undecided pushed to lean	**n=46**
Q7 · 2024 presidential vote recall	**n=755**
Q8 · 2022 U.S. Senate vote recall	**n=755**

SMALL BASES IN THIS WAVE

Hispanic Race / ethnicity (reported) · 29 modeled	n=44
Asian, Other Race / ethnicity (reported) · 9 and 13 modeled	n=16, 18
Town Metro type	n=43
Savannah Media market · the largest outside Atlanta	n=60
Macon Media market	n=51
Augusta–Aiken Media market	n=29
Seven smallest markets Media market · 19 or fewer each, 78 combined	n≤19
Undecided follow-ups Q2, Q4, Q6 · directional only	n=22, 34, 46

QUESTION BASES

Every ballot and recall question was asked of the full base of 755 likely voters. The three follow-ups were asked only of respondents who were undecided on the initial ballot.

DIFFERENCES

The margin on a difference between two candidates is roughly ±7.6 points; a lead inside it is an edge, not decisive. Ossoff +6.9 is at that edge; the Governor and Lieutenant Governor results are inside it.

REPORTING NOTE

Design effect 1.16; effective sample size 652. Every question uses the full base of 755; subgroup bases are shown on every table.

AT A GLANCE

The headline figures

Ossoff +6.9

U.S. Senate ballot, full sample

Jackson +1.6

Governor ballot, full sample

Dolezal +0.7

Lieutenant Governor ballot, full sample

Ossoff +21

Senate margin among independents

Ossoff +16

Senate margin among women

Collins +4

Senate margin among men

Ossoff +13

Senate margin in the suburbs; Collins +32 rural

Trump +0.3

Recalled 2024 vote; certified Trump +2.2

A SPLIT TICKET

Ossoff leads by 6.9 while Jackson and Dolezal lead by 1.6 and 0.7, an eight-point gap between the Senate ballot and the rest of the Democratic ticket. Partisans hold on every line; the gap is independents and the suburbs.

WHERE IT IS DECIDED

Independents, a quarter of the sample, back Ossoff 56 to 35 but split 46 Bottoms to 44 Jackson. The suburbs are Ossoff +13, Jackson +3 and Dolezal +6; the Atlanta market is Ossoff +16, Bottoms +4 and even for Lieutenant Governor.

REPORTING NOTE

Margins are computed from unrounded topline shares and may differ by a tenth from the rounded figures shown; group margins are differences in whole-number column percentages.
