QUANTUS INSIGHTS

STATEWIDE SURVEY OF LIKELY VOTERS · GENERAL ELECTION

# Michigan U.S. Senate Survey

The El-Sayed–Rogers U.S. Senate ballot, four weeks before Election Day.

| FIELDED | RESPONDENTS | POPULATION | MARGIN OF ERROR |
| --- | --- | --- | --- |
| October 5–6, 2026 | 762 | Likely voters | ±3.9 |

EXECUTIVE BRIEF

# Core findings

**47.6 – 46.5**

El-Sayed – Rogers, U.S. Senate ballot

01

## An El-Sayed edge too small to read

El-Sayed 47.6 percent to Rogers 46.5, a 1.1-point edge. The margin of error on the gap between two candidates is about ±7.8, so neither holds a measurable lead. 4.2 percent are undecided.

02

## Leaners do not move it

Pushing the 31 undecided respondents to a lean moves the ballot to El-Sayed 48.4, Rogers 47.2, a 1.2-point margin. Two-thirds of them stayed undecided; the few who leaned split 6 to 5.

03

## A gender and metro divide

Women favor El-Sayed 52 to 42; men favor Rogers 52 to 43. Independents go 53 El-Sayed to 39. Urban voters go 63 El-Sayed; rural voters go 55 Rogers; the suburbs are 49 Rogers to 47.

04

## Both nominees are underwater

Rogers is 43.8 favorable to 49.4 unfavorable, net -5.6. El-Sayed is 46.6 to 48.0, net -1.4. Both are fully defined: fewer than one in ten has no view of either, and most hold a strong view.

05

## The sample recalls 2024 as it was

Respondents recall a 48.1 to 47.0 Trump vote, a 1.1-point margin, against a certified 1.4. The ballot does not rest on a partisan tilt in the sample.

METHODOLOGY

# How this survey was conducted

## POPULATION

The survey represents likely voters in the 2026 Michigan general election. A likely-voter screen was used to define and weight the survey population, drawing on voting history, demographics, partisan-lean indicators and voter-file geography. Weighting benchmarks were constructed from the voter-file research universe so that every target reflects the actual composition of Michigan's likely electorate.

## FIELD PERIOD

October 5 to October 6, 2026.

## SAMPLING

Stratified random sampling from the eligible universe, matched to available contact records.

## MARGIN OF ERROR

±3.9 percentage points at the 95 percent confidence level, design-adjusted, for the full sample of 762. The design effect is 1.21, resulting in an effective sample size of approximately 630. Subgroup margins are larger. The margin on the difference between two candidates is roughly twice the single-share margin, about ±7.8. Uncertainty was additionally checked with 400 reraked bootstrap replicates across seven analytical scenarios.

## ROUNDING

Percentages may not total 100 due to rounding. Full precision is retained in the underlying results.

## UNIVERSE

Active registered Michigan voter-file records. Respondents were contacted through SMS invitations sent to mobile phones. Of 762 completed interviews, 18 respondents (2.4 percent) who said they would not vote were removed from the ballot questions, leaving a voters-only base of 744.

## MODE

SMS-to-mobile cell interviews.

## WEIGHTING

Iterative proportional fitting, or raking, to benchmarks for the Michigan likely general-election electorate on seven dimensions: sex, age range, race and ethnicity (modeled), education (modeled), metro type, media market, and modeled party identification. Weights were trimmed to limit the influence of individual respondents and renormalized each iteration.

## REPORTING

Topline results are shown to one decimal; crosstab cells are whole-number column percentages within each subgroup. Base n is shown on every table. Cells marked † rest on fewer than 80 respondents and are directional only. Party is modeled voter-file identification (Republican, Democrat, Independent). Results are reported on both a full-ballot and a decided-voter base. The conditional follow-up question (Q2) is reported separately, and the full-sample margin of error is not applied to it.

The survey intelligence pipeline that processes each study is described on the next page. For questions or inquiries email contact@quantusinsights.org or visit quantusinsights.org.

QUANTUS INSIGHTS

METHODOLOGY

# Survey intelligence pipeline

Quantus Insights processes each study through a multi-stage survey intelligence pipeline that evaluates sample composition, coverage, geographic balance, and statistical stability.

01

### BENCHMARKS AND WEIGHTS

The pipeline applies the study's likely-voter criteria and weighting benchmarks, monitors the distribution and influence of survey weights, and evaluates convergence with the intended electorate.

02

### RESPONSE-BIAS AUDIT

Because respondents are drawn from the voter file, the pipeline also audits who within each demographic, partisan and geographic cell responded, comparing reported prior-cycle vote against certified results to detect response bias that demographic raking cannot.

03

### CALIBRATION AND STABILITY

Where indicated, final weights are calibrated to official prior-cycle returns at the media-market level; calibration targets come from certified election results, never from the survey's own recall distribution. Effective sample size, subgroup stability, missing-data patterns and response-propensity checks against the universe are reviewed throughout, and results are reported on both a full-ballot and a decided-voter base.

04

### EXPERT OVERSIGHT

Statistical automation is paired with expert methodological oversight to validate data quality, confirm the appropriate use of variables and benchmarks, and identify irregularities requiring further review. This combination provides a rigorous and consistent framework for producing estimates representative of the defined survey population.

How this study was processed: the pipeline's checks run on the full reporting base of 762 before any result in this report is produced. The reported design effect of 1.21 and effective sample size of 630 are outputs of that review.

QUANTUS INSIGHTS

SAMPLE COMPOSITION

# Reporting composition

762
reporting base

| GENDER | % | |
|---|---|---|
| Women | 52.8 | n=402 |
| Men | 47.2 | n=360 |

| AGE | % | |
|---|---|---|
| 18–29 | 10.4 | n=79 |
| 30–44 | 22.4 | n=171 |

| Asian | 1.6 | n=12 |

| EDUCATION | % | |
|---|---|---|
| HS – Some College | 61.3 | n=467 |
| College | 24.5 | n=187 |
| Graduate School | 14.2 | n=108 |

| PARTY ID (MODELED) | % | |
|---|---|---|
| Republican | 38.1 | n=290 |
| Democrat | 37.7 | n=287 |
| Independent | 24.3 | n=185 |

| METRO TYPE | % | |
|---|---|---|
| Suburban | 46.6 | n=355 |
| Rural | 26.2 | n=200 |
| Urban | 20.7 | n=158 |
| Town | 6.4 | n=49 |

| MEDIA MARKET | % | |
|---|---|---|
| Detroit | 47.9 | n=365 |
| Grand Rapids–Kalamazoo | 19.7 | n=150 |
| Flint–Saginaw–Bay City | 11.0 | n=84 |
| Traverse City–Cadillac | 9.3 | n=71 |
| Lansing | 5.2 | n=40 |
| South Bend–Elkhart | 3.5 | n=27 |
| Marquette | 1.3 | n=10 |
| Toledo | 1.3 | n=10 |
| Green Bay–Appleton | 0.3 | n=2 |
| Alpena | 0.3 | n=2 |
| Duluth–Superior | 0.1 | n=1 |

Counts are the full reporting base of 762; ballot questions use the voters-only base of 744 (18 would-not-vote respondents removed). Weights are raked to the methodology benchmarks. Party is modeled from the voter file and runs 38 Republican, 38 Democrat, 24 independent.

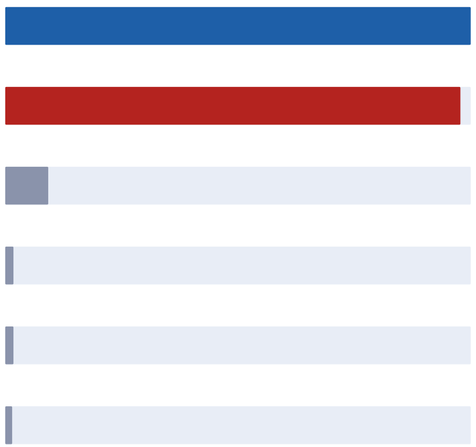

Race and ethnicity and education are modeled from the voter file. Town (n=49), Flint–Saginaw–Bay City (n=84 full base, 78 on the ballot), Traverse City–Cadillac (n=71), Lansing (n=40) and the five smallest markets rest on fewer than 80 respondents in the crosstabs that follow and are directional. Hispanic, Asian and Other respondents are likewise directional.

TOPLINE SUMMARY

# The ballot at a glance

Responses to the U.S. Senate ballot, in percent of likely voters. Full results and demographic detail follow in the sections behind this page.

## Q1 · U.S. SENATE BALLOT · N=744

| | |
|---|---|
| Abdul El-Sayed (D) | 47.6 |
| Mike Rogers (R) | 46.5 |
| Undecided | 4.2 |
| Douglas P. Marsh (G) | 0.7 |
| Lydia Christensen (L) | 0.7 |
| Tim Long (UST) | 0.3 |

## Q1–Q2 · BALLOT TREATMENTS · N=744

| | |
|---|---|
| As asked, all likely voters (Q1) | El-Sayed +1.1 |
| Full ballot with leaners (Q1 + Q2) | El-Sayed +1.2 |
| Two-way share, El-Sayed | 50.6 |
| Two-way share, Rogers | 49.4 |
| Undecided, as asked | 4.2 |
| Undecided, after leaners | 2.7 |

N = 744 likely voters who would vote · October 5–6, 2026 · design-adjusted margin of error ±3.9. Percentages may not total 100 due to rounding. Two-way shares divide each nominee's vote by the two-candidate total. The leaner treatment pushes undecided respondents to a choice; the full-sample margin of error does not apply to that follow-up.

SECTION ONE

# The U.S. Senate ballot

The full six-candidate ballot and the full ballot with undecided voters pushed to a lean, each with demographic and media-market detail.

QUESTIONS

Q1 – Q2

STRUCTURE

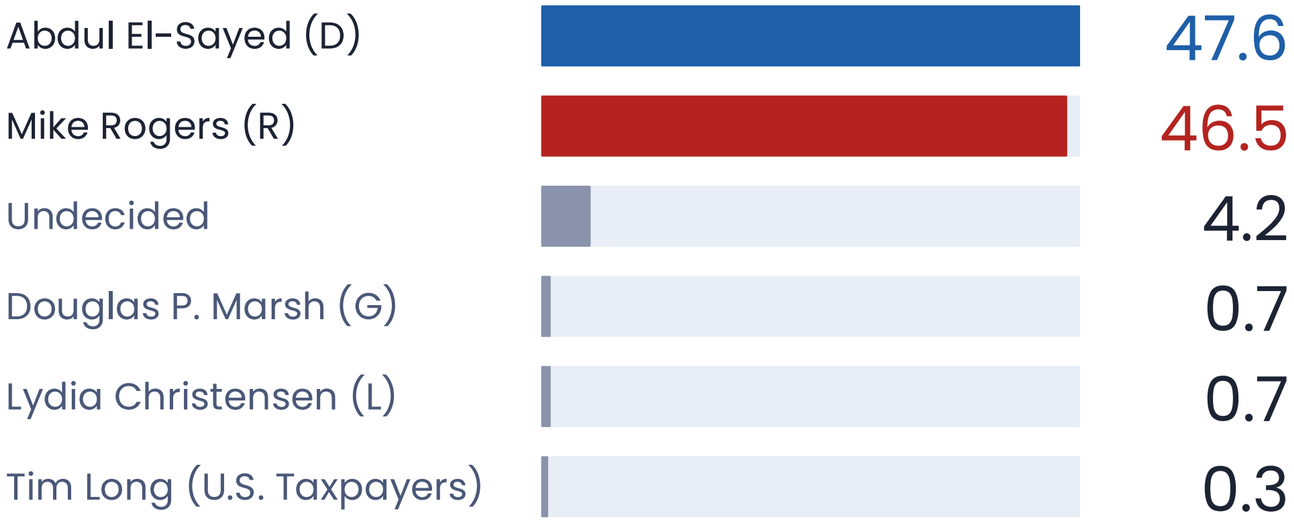

Topline result, demographic and media-market detail

BASES

n = 744 voters-only base; leaner follow-up n = 31

Q1 · U.S. SENATE BALLOT

# If the election for U.S. Senate in Michigan were held today, for whom would you vote?

## El-Sayed +1.1

El-Sayed margin, full sample

### TWO-WAY SHARE

**1.2** point margin, El-Sayed, two-way

### MARGIN BY GROUP

| | |
|---|---|
| Women | El-Sayed +10 |
| Men | Rogers +9 |
| Independents | El-Sayed +14 |
| Suburban | Rogers +2 |
| Rural | Rogers +20 |

### THE MARGIN

El-Sayed leads by 1.1 points. The margin on a difference between two candidates is about ±7.8, so the result is a statistical tie.

### THE REST OF THE BALLOT

Marsh and Christensen draw 0.7 percent each and Long 0.3; 4.2 percent are undecided. The 18 respondents who would not vote are excluded from the base.

### REPORTING NOTE

Column percentages on the voters-only base of 744. Group margins are differences in whole-number column percentages; two-way share divides each nominee by the two-candidate total.

Q1 · DEMOGRAPHIC DETAIL

### DETROIT AND GRAND RAPIDS

Detroit, 49 percent of the ballot base, goes El-Sayed 50 to 43. Grand Rapids–Kalamazoo–Battle Creek, 20 percent, goes Rogers 56 to 44 with one percent undecided.

### THE SMALLER MARKETS

Flint–Saginaw–Bay City goes Rogers 48 to 43 and Lansing 50 to 45; Traverse City–Cadillac is 46 El-Sayed to 44. All three rest on fewer than 80 respondents and are directional.

### REPORTING NOTE

Whole-number column percentages within each market. † = base under 80, directional. The six smallest markets are 6 percent of the base together; read them as transparency only.

Q1 + Q2 · UNDECIDED VOTERS PUSHED

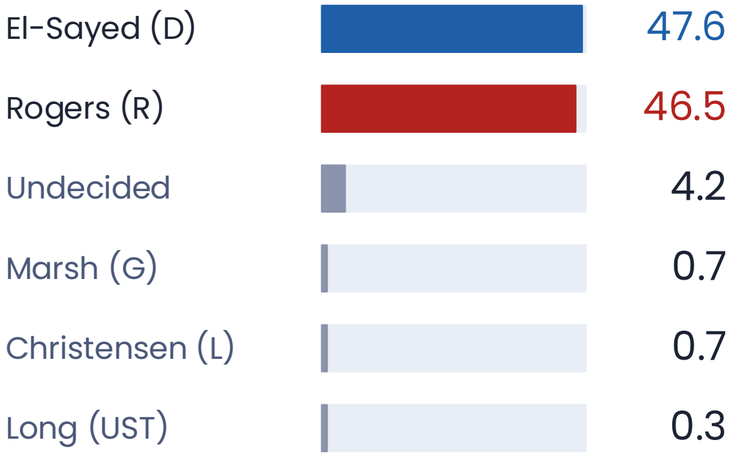

# The full ballot as asked and with undecided respondents pushed to a lean.

## El-Sayed +1.2

El-Sayed margin, firm plus leaners

### AS ASKED · ALL LIKELY VOTERS

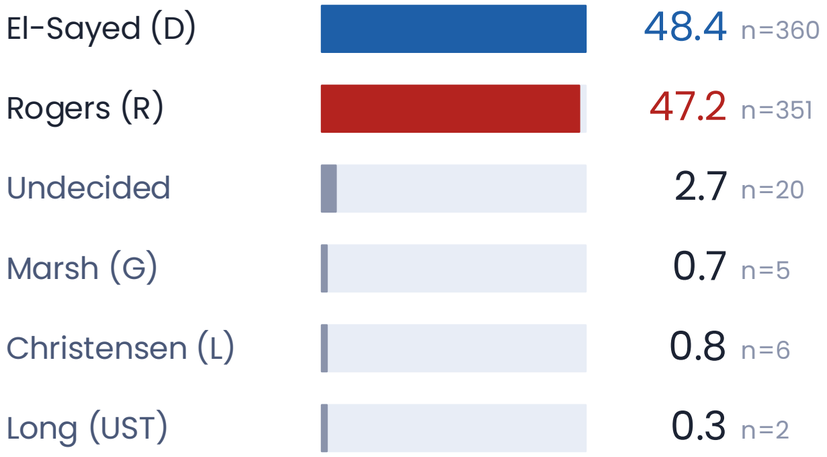

n = 744

MARGIN **El-Sayed +1.1**

### FIRM + LEANERS

Q1 undecided (n=31) asked Q2 · reporting base 744

MARGIN **El-Sayed +1.2**

### HOW THE UNDECIDED BROKE

Of the 31 undecided on Q1, 19.7 percent leaned El-Sayed (n=6) and 15.7 percent Rogers (n=5); 64.6 percent stayed undecided (n=20).

### WHAT CHANGES

Leaners lift El-Sayed to 48.4 and Rogers to 47.2 and cut undecided to 2.7 percent. The margin widens by a tenth, from 1.1 to 1.2.

### REPORTING NOTE

The as-asked result is the reported ballot. Q2 is a conditional follow-up on 31 respondents; the full-sample margin of error does not apply to it.

SECTION TWO

# Michigan in context

The Senate ballot against the state’s regional map, its statewide benchmarks since 2008 and the published polling averages.

QUESTIONS

Q1 in context

STRUCTURE

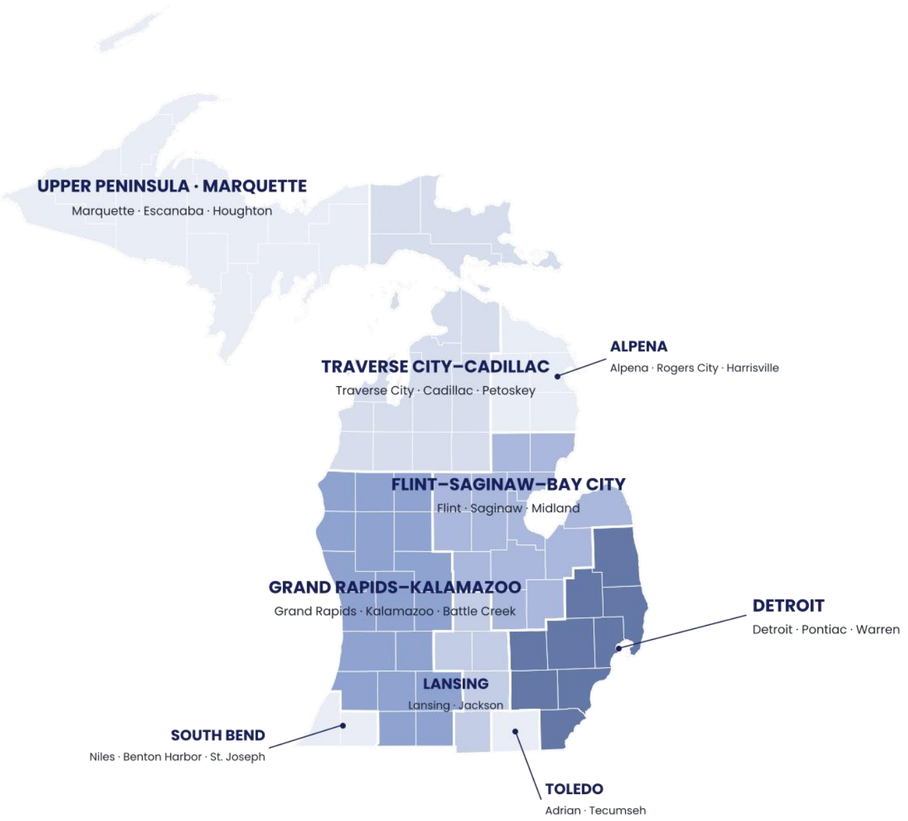

Regional map and statewide benchmarks

BASES

Certified returns, 2008–2024; published polling averages

REGIONAL CONTEXT

# Where Michigan's vote comes from

Regions are analyst groupings of the 83 counties keyed to the Nielsen media markets used in this survey, not official designations. Tints follow each region's share of the 2024 vote.

## MARGIN BY REGION, 2020 AND 2024

| REGION | SHARE | 2020 PRESIDENT | 2020 SENATE | 2024 PRESIDENT | **2024 SENATE** | ROGERS VS. TRUMP |
|---|---|---|---|---|---|---|
| **Statewide** | 100% | **D +2.8** | **D +1.7** | **R +1.4** | **D +0.3** | **-1.7** |
| Detroit | 49% | D +14.5 | D +13.6 | D +8.5 | **D +10.9** | -2.4 |
| Grand Rapids | 22% | R +8.2 | R +12.3 | R +9.8 | **R +9.6** | -0.2 |
| Flint–Saginaw | 12% | R +7.7 | R +4.9 | R +11.7 | **R +8.4** | -3.3 |
| Lansing | 7% | D +4.5 | D +5.2 | D +1.9 | **D +4.3** | -2.4 |
| Traverse City | 5% | R +18.9 | R +20.7 | R +19.2 | **R +18.7** | -0.5 |
| Upper Peninsula | 3% | R +14.5 | R +12.7 | R +17.5 | **R +16.9** | -0.6 |
| Small markets | 4% | R +18.9 | R +21.2 | R +21.0 | **R +22.0** | +1.0 |
| WITHIN THE DETROIT MARKET | | | | | | |
| Wayne | 15% | D +38.1 | D +37.3 | D +29.0 | **D +31.5** | -2.5 |
| Oakland | 14% | D +14.0 | D +11.0 | D +10.6 | **D +12.2** | -1.6 |
| Macomb | 9% | R +8.1 | R +5.7 | R +13.7 | **R +9.7** | -4.0 |
| Outer Detroit | 11% | R +0.8 | R +1.9 | R +4.0 | **R +2.0** | -2.0 |

President: Biden–Trump 2020, Harris–Trump 2024. Senate: Peters–James 2020, Slotkin–Rogers 2024. Democratic minus Republican share of all votes, from certified county returns. Rogers vs. Trump: Rogers' 2024 margin less Trump's; negative means Rogers ran behind. Share is the region's portion of the 2024 vote.

### DETROIT

The Detroit market casts 49 percent of the vote. It went Harris +8.5 and Slotkin +10.9 in 2024, down from Biden +14.5 and Peters +13.6. Wayne is the base at D +29 to +32; Macomb is R +10 to +14.

### WHERE ROGERS RAN BEHIND

Rogers trailed Trump by 2.4 points across the Detroit market, 4.0 in Macomb and 3.3 in Flint–Saginaw. He matched Trump in Grand Rapids, Traverse City and the Upper Peninsula.

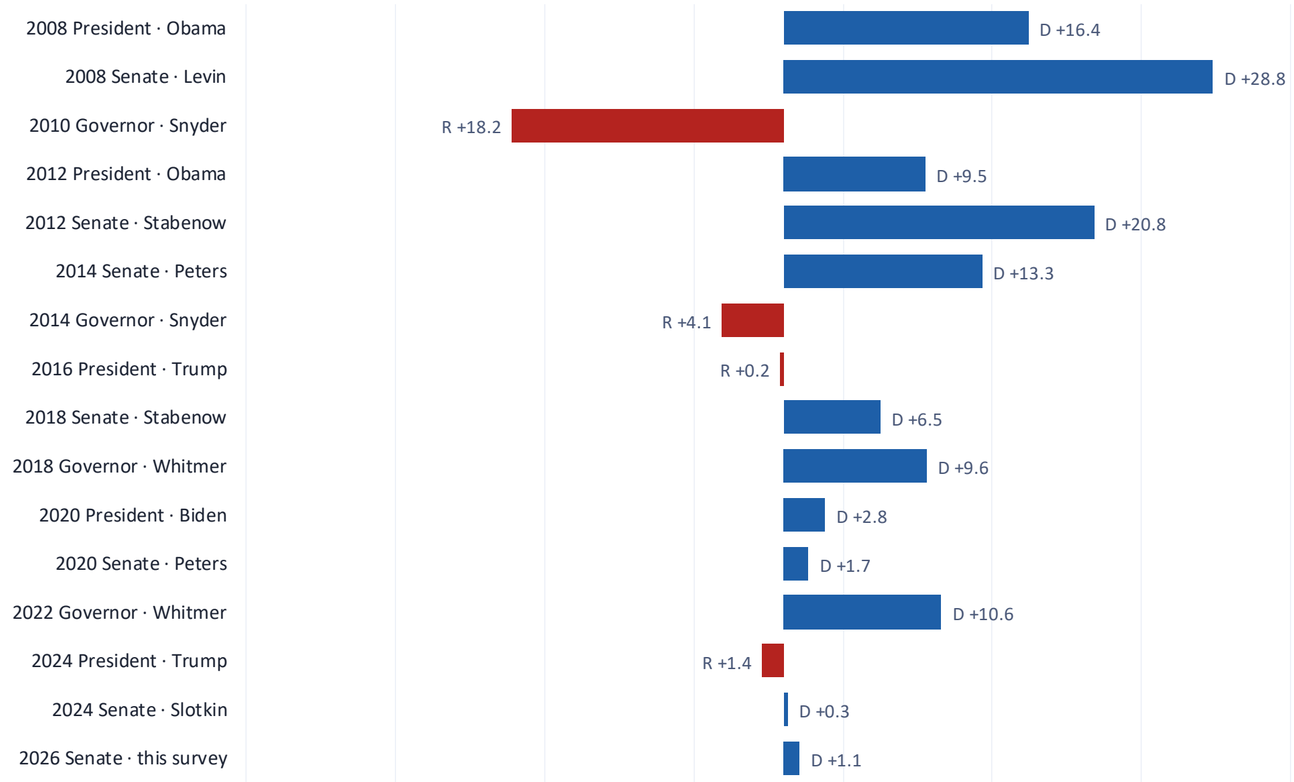

### IN THIS SURVEY

Detroit, 49 percent of the ballot base, goes El-Sayed 50 to 43, near Slotkin's 2024 margin; Grand Rapids goes Rogers 56 to 44, two points past his 2024 showing. Flint and Lansing lean Rogers on small bases.

HISTORICAL BENCHMARKS

# A blue state drifted to even; a race the polls call El-Sayed +3

| **Average of averages**<br>Five aggregators | **47.6** | **44.0** | **El-Sayed +3.6** |

Aggregator averages as updated September 28 – October 6, 2026. Shares in percent. Cook Political Report rates the race Toss Up; Sabato's Crystal Ball moved it to Leans Democratic on September 22.

### THE BENCHMARK

Michigan voted Democratic for president from 1992 through 2012, by 9.5 and 16.4 points in 2012 and 2008, then by 0.2 for Trump in 2016, 2.8 for Biden and 1.4 for Trump. The 2024 Senate race was decided by 0.3.

### THE CANDIDATE RECORD

Rogers lost the 2024 Senate race to Elissa Slotkin 48.6 to 48.3, a point behind the top of the ticket. El-Sayed won the August 4 primary over Haley Stevens 48.5 to 47.5. Neither has won statewide.

### AGAINST THE AVERAGES

El-Sayed's 47.6 matches the aggregators' 47.1 to 47.8 range; Rogers' 46.5 is above their 43.8 to 44.4. El-Sayed +1.1 against El-Sayed +3.6 is a 2.5-point gap, inside the ±7.8 margin on a difference.

SECTION THREE

# Favorability and the 2024 baseline

How likely voters see the two nominees, and how the sample recalls its 2024 presidential vote, each with demographic detail.

QUESTIONS

Q3 – Q5

STRUCTURE

Topline result and demographic detail

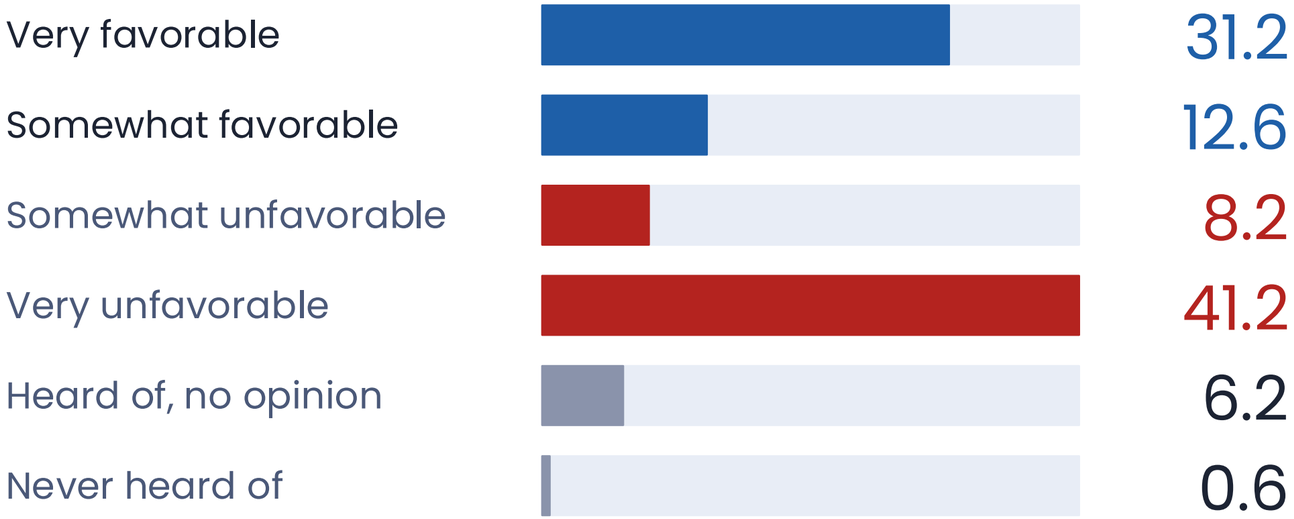

BASES

n = 744 voters-only base

Q3 · MIKE ROGERS FAVORABILITY

# Do you have a favorable or unfavorable opinion of Mike Rogers?

**Net -5.6**
Rogers favorable minus unfavorable

## FAVORABLE VS. UNFAVORABLE

**-5.6** net favorability, Rogers

## NET FAVORABILITY BY GROUP

| | |
|---|---|
| Women | Net -10 |
| Men | Even |
| Independents | Net -18 |
| Urban | Net -29 |
| Rural | Net +16 |

### UNDERWATER

Rogers is 43.8 favorable to 49.4 unfavorable, net -5.6. Four in ten likely voters, 41.2 percent, are very unfavorable, against 31.2 percent very favorable.

### WELL KNOWN

Only 6.8 percent have no opinion of Rogers or have never heard of him. Opinion is largely formed, and it is polarized: 72 percent hold a strong view either way.

### REPORTING NOTE

Column percentages on the voters-only base of 744. Net is favorable minus unfavorable from unrounded shares; group nets from whole-number column percentages.

| Duluth–Superior† | 0† | 100† | 0† | 1 |

## GENDER GAP

Men are even on Rogers, 44 to 44, with 12 percent holding no view; women are 44 favorable to 54 unfavorable, net -10.

## PARTY

Republicans are 71 favorable to 24; Democrats 20 to 70. Independents split 38 favorable to 56 unfavorable. Voters 45 and over are net positive; voters under 45 are 20 to 80 and 25 to 60.

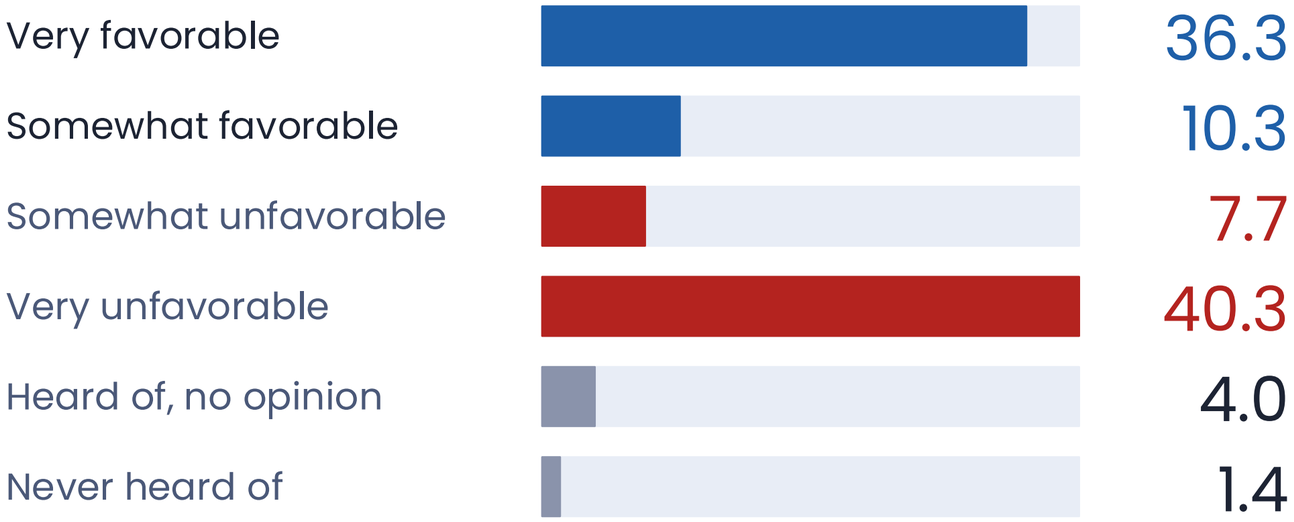

## REPORTING NOTE

Whole-number column percentages. Fav. and Unfav. combine strong and somewhat; None = no opinion or never heard of. † = base under 80.

Q4 · ABDUL EL-SAYED FAVORABILITY

# Do you have a favorable or unfavorable opinion of Abdul El-Sayed?

**Net -1.4**
El-Sayed favorable minus unfavorable

## FAVORABLE VS. UNFAVORABLE

**-1.4** net favorability, El-Sayed

## NET FAVORABILITY BY GROUP

| | |
|---|---|
| Women | Net +11 |
| Men | Net -15 |
| Independents | Net +9 |
| Urban | Net +16 |
| Rural | Net -21 |

### NARROWLY UNDERWATER

El-Sayed is 46.6 favorable to 48.0 unfavorable, net -1.4, with 36.3 percent very favorable and 40.3 percent very unfavorable.

### EQUALLY WELL KNOWN

5.4 percent have no opinion of El-Sayed or have never heard of him, about the same as Rogers' 6.8. Both nominees are fully defined; 77 percent hold a strong view of El-Sayed.

### REPORTING NOTE

Column percentages on the voters-only base of 744. Net is favorable minus unfavorable from unrounded shares; group nets from whole-number column percentages.

Q5 · 2024 PRESIDENTIAL VOTE RECALL

## In the 2024 election for President, did you vote for Republican Donald Trump, Democrat Kamala Harris, someone else, did you not vote in that race, or are you unsure?

# Trump +1.1

Trump margin, recalled 2024 vote

### TWO-WAY SHARE, RECALLED

**1.4** point margin, Trump, certified 2024 result

### RECALLED MARGIN BY GROUP

| | |
|---|---|
| Women | Harris +9 |
| Men | Trump +13 |
| Independents | Even |
| Suburban | Trump +4 |
| Rural | Trump +21 |

### THE BASELINE

Respondents recall a 48.1 to 47.0 Trump vote, a 1.1-point margin. Michigan's certified 2024 result was Trump 49.7 to Harris 48.3, a 1.4-point margin.

### WHAT IT MEANS

The sample recalls a margin 0.3 points narrower than the certified result. El-Sayed's ballot edge does not rest on an over-Democratic sample.

### REPORTING NOTE

Column percentages on the voters-only base of 744. Certified result from the Michigan Bureau of Elections; recall typically understates the winner's margin.

Q5 · DEMOGRAPHIC DETAIL

# In the 2024 election for President, did you vote for Republican Donald Trump, Democrat Kamala Harris, someone else, did you not vote in that race, or are you unsure?

| Duluth–Superior† | 0† | 100† | 0† | 1 |

## GENDER GAP

Men recall Trump by 13 points; women recall Harris by 9.

## PARTY

Republicans recall Trump 92 to 4; Democrats recall Harris 91 to 5. Independents split 45 to 45 and now back El-Sayed 53 to 39. Rural voters recall Trump +21 and go Rogers +20.

## REPORTING NOTE

Whole-number column percentages. Neither combines someone else, did not vote and unsure. † = base under 80; race and education are modeled from the voter file.

BASES AND MARGIN OF ERROR

# What each number can carry.

| ANALYSIS BASE | 95% MARGIN OF ERROR | REPORTABLE |
|---|---|---|
| 762 full study | ±3.9 pts | Yes |
| 300 to 400 | ±5.4 to ±6.2 pts | Yes |
| 150 to 250 | ±6.8 to ±8.8 pts | Yes, with base |
| 80 to 149 | ±8.8 to ±12.1 pts | Directional |
| Under 80 | wider than ±12.1 pts | Transparency only |

Margins are calculated at the 95 percent confidence level for an estimate near 50 percent and include the survey design effect of 1.21. Subgroups marked † should be interpreted as directional. The conditional follow-up question (Q2) does not use the full-sample margin of error.

## QUESTION BASES

| | |
|---|---|
| Q1 · U.S. Senate ballot | **n=744** |
| Q2 · Forced lean, Q1 undecided | **n=31** |
| Q3 · Mike Rogers favorability | **n=744** |
| Q4 · Abdul El-Sayed favorability | **n=744** |
| Q5 · 2024 presidential vote recall | **n=744** |

| Asian<br>Race / ethnicity (modeled) | n=11 |
| Q2 · forced lean<br>Conditional follow-up | n=31 |

### QUESTION BASES

The Senate ballot, the favorability questions and the recall question were all asked of the voters-only base of 744 likely voters.

### DIFFERENCES

The margin on a difference between two candidates is roughly ±7.8 points; a lead inside it is an edge, not decisive.

### REPORTING NOTE

Design effect 1.21; effective sample size 630. Ballot questions use the voters-only base of 744; the sample profile uses all 762.

AT A GLANCE

# The headline figures

## El-Sayed +1.1

U.S. Senate ballot, full sample

## El-Sayed +14

Ballot margin among independents

## El-Sayed +10

Ballot margin among women

## Rogers +9

Ballot margin among men

## El-Sayed +32

Ballot margin among urban voters

## Rogers +20

Ballot margin among rural voters

## Rogers +2

Ballot margin among suburban voters

## Trump +1.1

Recalled 2024 vote; certified Trump +1.4

### A STATISTICAL TIE

El-Sayed leads by 1.1 as asked and 1.2 with leaners, well inside the roughly ±7.8 margin on a difference. He holds women, urban voters and voters under 45; Rogers holds men, rural voters and voters 45 and over.

### WHERE IT IS DECIDED

Independents, a quarter of the sample, back El-Sayed 53 to 39 with 6 percent undecided. The suburbs are 49 Rogers to 47; Detroit is El-Sayed +7 and Grand Rapids Rogers +12. Both nominees are underwater.

### REPORTING NOTE

Margins are computed from unrounded topline shares and may differ by a tenth from the rounded figures shown; group margins are differences in whole-number column percentages.
