Vote by Race/Gender	Senate vote choice by race and gender
Vote by Education	Senate vote choice by education
Vote by Age	Senate vote choice by age

Reading the tables

Each section reports column percentages rounded to the nearest whole number. Percentages are calculated within the column categories shown. Totals may be slightly higher or lower than 100% because of rounding. Positive percentages that round to 0% are shown as <1%.

Results use raked weights. Weighted cell counts are rounded before calculating percentages.

Q5r combines candidate preferences among respondents who had not yet voted with reported votes from respondents who had already voted.

Senate vote choice by party identification

North Carolina 2026 U.S. Senate Election | Poll #3 | Q5r

COLUMN PERCENTAGES

Response	Republican	Democrat	Independent (or something else)	Total
